FORT WILLIAM,  
MARINE DEPARTMENT,

THE 31ST MARCH, 1841.

The Right Hon'ble the Governor of Bengal is pleased to direct that the following Notice received with a letter from the Colonial Secretary to His Excellency the Governor of Western Australia, dated the 20th October last, be published for general information:

*Colonial Secretary's Office, Perth,  
October 15, 1840.*

His Excellency the Governor, in directing the publication of a communication which has been received from the Hon. the Surveyor-general relative to the establishment of two beacons as guides to vessels approaching Gage's Roads through the Southern passage, near Rottneest, together with the necessary sailing instructions for vessels approaching this Island, avails himself of the opportunity thus

afforded him of expressing his high sense of the important and valuable services rendered on this occasion by Capt. Wickham, aided by the zealous co-operation of Lieut. Stokes, and the officers and crew of H. M. S. Beagle, whereby a lasting benefit has been conferred, not only on the inhabitants of Western Australia but to all persons in any way connected with commerce and navigation in these seas.

*By His Excellency's command,  
PETER BROWN.*

*Survey Office, Perth,  
Oct. 15, 1840.*

SIR,—I have the honor to report, for the information of His Excellency the Governor, my return, yesterday evening, in H. M. S. Beagle, from Rottneest Island where, by the kindness of Capt. Wickham, and the zealous co-operation of Lt. Stokes, and the officers and crew of that ship, two very serviceable beacons have been erected upon Duck Rock and Fisherman's Rock, for pointing out the best navigation into Gage's Roads through the Southern passage, near Rottneest. These sea marks, and the admirable chart of the Island and passage, constructed by the indefatigable perseverance of Lieut. Stokes and his assistants, have enabled me to forward to His Excellency the enclosed sailing directions for the vicinity of Rottneest, which I beg leave to recommend should be made public as early and extensively as possible,—no minute chart or instructions for that navigation, having hitherto been published for the guidance of mariners.

J. S. ROE,  
*Surveyor-General.*

To the Hon. the Colonial Secretary.

SAILING DIRECTIONS FOR THE NAVIGATION ABOUT  
ROTTNEEST ISLAND.

Rottneest Island, 6 miles in length E. by N. and W. by S. with an extreme breadth of 2½ miles, has an irregular hummocky surface, not much wooded, and may now be distinguished from Garden Island and the contiguous main land by a white obelisk, 15 ft. in height, with a pole in the middle, of the same length, which has recently been erected on its highest part near the centre of the Island. This sea-mark, being elevated about 157 ft. above the level of the sea, may be seen from a ship's deck in clear weather at the distance of 7 or 8 leagues, and will shortly give place to a light-house of greater elevation. Its position, according to observations in H. M. S. Beagle, is lat. 32d. 0m. 14s. South, long. 115d. 29m. 6s. East from Greenwich.

To round the Island on its north side, a ship should not approach nearer than one mile in order to avoid the *Horseshoe Rock*, which lies ¾ of a mile off shore, at the distance of two miles N. 39d. E. from the Island's west extremity, and *Roe's Reef*, situate ¾ of a mile N. 16 deg. W. from a small rock with a cask beacon upon it, about half a cable's length from the Island's N. E. point. The beacon is upon *Duck Rock*, and the projection near it is *Bathurst Point*. A ship will be clear to the northward of *Horseshoe Rock* while *Duck Rock* beacon is kept open of the N. point of Rottneest; and *Roe's Reef* may be cleared on the north by keeping the west end of Rottneest (Cape Vlaming) open of the north point, until *Duck Rock* bears south; a course may then be shaped about E by S. for a remarkable white sand patch on the main, which will be distinctly visible 3½ miles north from the entrance to Swan river: and when some rocky islets near the S. E. side of Rottneest are seen to the SSW., opening round the east end of another small rock with a cask beacon upon it 1¼ mile SE ¼ E from *Duck Rock*, a SE by E course will conduct into Gage's Roads.

*Kingston Spit*, in front of Thompson's Bay, extends 2 miles east from *Duck Rock*, and a long mile NE by E from the beacon last mentioned, which has recently been placed upon *Fisherman's Rock*, a small mass of white rocks about 2 cables length NE from the Sandy east point of Rottneest Island, distinguished by the name of *Point*

Philip. To clear Kingston Spit on the north, keep Duck Rock a little shut in to the south of a bare pointed hill near the northern shore of Rottneet; or should the bare hill not be distinguished, keep the north extreme of Rottneet to the southward of  $W \frac{1}{2} S$ ; and to clear Kingston Spit on the south, keep the south extreme of Rottneet (Point Parker) open of the next projection to the NE of it ( $S. W. by W.$ ) Thompson's Bay is a fit resort for boats only, being full of shoal rocky patches and sand banks, to the distance of a mile from the shore,—the remainder of Kingston Spit being occupied by foul uneven ground, with depths varying between 5 and 2 fathoms; near its north and east edges are 7 fathoms, deepening to 9 and 10 in  $\frac{1}{2}$  a mile. Between Point Philip and the next projection a long  $\frac{1}{2}$  mile to the SSW (Bickley Point) there is good shelter in *Beagle's Anchorage* from all the usual NW and SW gales of winter, the best berth being in 4 fathoms water, sandy ground, nearly  $\frac{1}{2}$  a mile south from Fisherman's Rock, and a  $\frac{1}{2}$  of a mile NE from two small rocks called the Twins,—the south point of Rottneet being also in a line with Bickley Point. In this situation a vessel should moor, on account of the limited space.

**Southern Passage.** On the SE side of Rottneet there is a good channel,  $2\frac{1}{2}$  miles wide, called the *Southern Passage* into Gage's Road,—the only obstruction in it being a patch of 3 fathoms, sand and weeds called *Middle Bank*, in a line between Point Philip and the Champion Rock, at  $1\frac{1}{2}$  miles from the former and  $1\frac{1}{4}$  miles from the latter. After a gale, the NW swell round the east end of Rottneet crossing the ocean roll from the SW, breaks heavily at this spot, and indicates its position; it may, however, be avoided by borrowing towards the rocky islets near Rottneet, which have no dangers fronting them beyond a cable's length; and the bank is cleared to the eastward when the beacon on Duck Rock opens round to the NE of that on Fisherman's Rock. These 2 beacons in a line lead also about a cable's length to the NE of the *Champion Rock*, which has only 9 ft. water upon it with 4 and 5 fathoms all around. This danger, which lies on the SE side of the *Southern Passage*, is at the NW extremity of a collection of rocks and foul ground that extend  $2\frac{1}{2}$  miles NNW  $\frac{1}{2}$  W from the Stragglers toward the east end of Rottneet, without any channel amongst them which can yet be pronounced safe. In working up for the southern passage with a northerly wind, the Champion Rock and dangers in its vicinity may be avoided by keeping the high lump of rock called the *Mewstone*, open to the SW of the largest and highest of the Stragglers, until the SW end of Rottneet shuts in round its south point, bearing about  $W \frac{1}{2} N$ . This last mark will carry a ship clear between Champion Rock and Middle Bank; but should the Mewstone and Stragglers not be satisfactorily distinguished, the beacon on Fisherman's Rock should not be brought to bear more to the westward than  $N 30^{\circ} W$  by compass, until the SW point is shut in by the south point of Rottneet, as before shewn.

**Approaching Rottneet and Southern Passage.** In steering for Rottneet Island and the southern passage from the westward, the shore should not be approached nearer than half a mile, and the bays on each side of the south point are foul and rocky. *Porpoise Bay*, on its NE side, is also fronted by a low rocky mass called *Direction Islet*, which lies  $1\frac{1}{2}$  miles E  $23^{\circ} N$  from the south point, and has deep water to within a cable's length of its SE side. The summit of *Direction Islet* is in a line with a hill with some trees on its summit (*Tree Hill*), about  $\frac{1}{2}$  a mile to the north of the south point, leads directly over *Middle Bank*; therefore *Tree Hill* a little open to the north of *Direction Islet* leads clear to the north of *Middle Bank*,—and the same hill on with south point of *Direction Islet* leads clear on its south side. The next grey rock (*Wallace Islet*)  $\frac{1}{2}$  a mile to the NNE, is very rugged, and lies close in to Bickley Point.—it has  $2\frac{1}{2}$  fathoms, rocky ground, nearly  $\frac{1}{2}$  of a mile SE of it, which may be avoided in hauling up for *Beagle's Anchorage* by keeping the south point on with the southern extreme of *Direction Islet* until Fisherman's Rock bears North. The Twin Rocks lie near each other,  $\frac{1}{2}$  of a mile NE from Wallace Islet, and are bold and steep. Round their NE side is *Beagle's Anchorage*, which is a secure retreat in winter.

**Currents.** In beating up to Rottneet against a strong northerly or southerly breeze, much ground will be gained by working

in the stream of the island, in order to avoid the strength of a lee current which is found on such occasions to run at the rate of 1 to  $1\frac{1}{2}$  miles an hour. The *Beagle* found 5 ft. high water at full and change in Thompson's Bay at 7h. 50m P.M.,—tide ebbing 10 hours, and flowing 14 hours, with a rise not exceeding 32 inches.

**Winds.** Sea and land breezes prevail in summer. From March to October, NW gales may be expected, rising from the northward, preceded by a fall in the barometer,—blowing longest at NW,—strongest between WNW and W,—and moderating after a hard squall from the SW.

CALCUTTA COLLECTORATE, 15th MARCH 1841.

NOTICE is hereby given, that for the purpose of having a correct record of all the Lands in Dhee Punchawnogoon, the number of Tenures into which they are divided, the Rent payable on each, the names of the actual Holders, and of all necessary particulars calculated not only to shew at once the parties who may in each case be actually responsible for the Ground Rent, but also to prevent losses and disputes to any parties hereafter, the Government have resolved, under the Provisions of Regulation VII. of 1822, extended to Bengal by Regulation IX. of 1825, to cause a Survey and Measurement of those Lands to be made under the superintendence of an Uncovenanted Deputy Collector, appointed under Regulation IX. of 1833. It is at the same time notified, that Government, in coming to this Resolution, does not intend to enhance the rates of Rent now fixed upon any of the hereditary and permanent Tenures in Punchawnogoon, but merely to have them correctly recorded as they now exist in the names of their actual Holders or Owners. With a view moreover to prevent the advantages of the proposed Survey and Measurement being lost either to Government or to individuals, the attention of Holders of Land is particularly requested to the Provisions of Clause VIII., Section XV., Regulation VII. of 1799, by which they are required to Register in the Office of the Collector of the District all Transfers, Successions, or Divisions of their Lands whenever any such changes may take place, and Notice is hereby given, that from and after the completion of the proposed Survey and Measurement, this Office will adopt measures to secure a strict observance of the Rule adverted to by all Landholders in Dhee Punchawnogoon. Mr. M. Crow has been appointed Deputy Collector for the Survey and Measurement of Punchawnogoon.

## FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 31ST MARCH, 1841.

Notice is hereby given, that the Sub-Treasurers at Fort William, Fort St. George, and Bombay, the Principal Residents at Native Courts, and several Collectors of Land Revenue under those Presidencies, as well as the Collectors and others in charge of Treasuries under the Government of the North Western Provinces have been authorised to receive, until further orders, any sums of money, in even hundreds, of less than 500, of Company's Rupees, which may be tendered on Loan to the East India Company, at interest of 5 per cent. per annum, subject to the conditions hereinafter specified.

Audited Bills for arrears of Salary, whether the same shall have been advertised for payment or not, may be received in lieu of Cash Subscriptions without deduction. Bills of Exchange on the Public Treasuries will also be received in subscription to this Loan with a deduction at the rate of 5 five per cent. per annum for the period they may have to run. Treasury Notes, and all authorised Public Demands, may be received as cash at par.

The Paymasters of the Army under the several Presidencies are also authorised to transfer any drafts which may be payable by them respectively on Loan, and to grant drafts at the Presidencies of Fort William, Fort St. George, and in the North Western Provinces for the amount, in the usual manner to the Accountant General; and at the Presidency of Bombay, on the Military Pay Master General. Such Drafts shall be received by the several Paymasters above mentioned, in payment of subscriptions, and tendered to them for that purpose.

At Furruckabad, Lucknow, Madras, and Bombay the Bills will be received where respectively current with the Company's Rupees, in which last mentioned currency all Acknowledgments for the receipt of money into this Loan shall be expressed. Interest on money paid in these Rupees will be issued at the rates respectively specified.

The several Public Officers authorised to receive subscriptions into this Loan will grant Acknowledgments in the following Form, for all sums received by them respectively.

I hereby acknowledge that A. B. has this day paid to the East India Company's Treasury the sum of \_\_\_\_\_ Company's Rupees \_\_\_\_\_

which he is entitled to receive a Promissory Note, bearing interest from the (30th of June or 31st December next ensuing of the year in which the subscription may be received as the case may be) the tenor and subject to the conditions specified in the advertisement published in the Calcutta Gazette of the \_\_\_\_\_ and immediately the same interest from the date of this Acknowledgment to the (30th of June or 31st December of the year of subscription as above.)"

6. The Deputy Accountant General at Fort William will, on the said Acknowledgments being delivered to him, forthwith cause to be prepared and issued to the parties entitled thereto, Promissory Notes under the signature of the Secretary to the Government of India in the following Form:

"FORT WILLIAM, the 30th June, 1841."

"Promissory Note at 5 (five) per Cent for Company's Rupees \_\_\_\_\_"

"The Governor General of India in Council does hereby acknowledge to have received from A. B. the sum of Company's Rupees \_\_\_\_\_"

"as a Loan to the East India Company, and does hereby promise for and on behalf of the said Company to repay the said Loan, by paying the said sum of Company's Rupees, \_\_\_\_\_"

"three months notice of payment to be given by the Governor General of India in Council in the

"Calcutta Gazette, and to pay the interest accruing on the said sum of Company's Rupees \_\_\_\_\_"

"at the rate of 5 per cent. per annum, by half-yearly payments at the General Treasury of Fort William,

"to the said A. B. his Executors or Administrators, until the expiration of three months after such

"notice of payment as aforesaid, when the amount of interest due will be payable with the principal,

"and (such notice being considered as equivalent to a tender of payment at the period appointed

"for the discharge of the Note) all further interest shall cease."

"Signed by the authority of the Governor General of India in Council,

"Secretary to the Government."

"Accountant General's Office, \_\_\_\_\_ }  
"Registered as No. \_\_\_\_\_ of 1841-42." }

7. The several Officers authorised to receive subscriptions will, on application from the Holders of Acknowledgments, transmit them (free of every expense whatever) to the Accountant General in Bengal, to be exchanged for Promissory Notes bearing interest from the 30th of June, or 31st December next ensuing after the date of subscription. The interest accruing on the broken period of the half year, that may intervene between the date of subscription and the 30th of June, or 31st December next ensuing, as the case may be, will be paid up at the time of granting the Acknowledgment.

8. Proprietors of Notes who may require the interest to be paid at the General Treasury of Fort St. George, shall be entitled to receive it accordingly, provided they previously notify their wish to the Accountant General at Fort William, and present the Notes to him to have an order for the payment

of interest at the said Treasury, written on the face of them, under the signature of the said Officer or that of the Deputy Accountant General. And after such order shall, on the application of the Proprietor, be inscribed on any Note the interest shall be payable only from the said Treasury, unless the Proprietor shall present the Note with an application for the purpose of transferring the payment to Bengal, to the Accountant General at Fort St. George, who, on such application being so made, will cancel the said order by writing inscribed as aforesaid, under the signature of himself or his Deputy, a similar course will be followed, *mutatis mutandis*, in the case of Proprietors of Notes who may desire to have the interest thereof paid at the General Treasury of Bombay.

9. The Proprietors of Acknowledgments, who may desire to have the interest of the Promissory Notes to be issued on exchange thereof, to be made immediately payable at Madras or Bombay, must express their desire to that effect on the face of the Acknowledgments, before transmitting them to the Accountant General at Fort William, who will make the interest payable accordingly in the manner and subject to the conditions above stated.

10. The Promissory Notes of this Loan shall not be renewed or subdivided except by the Accountant General at Fort William. But the Accountants General at Fort St. George and Bombay will, on application of the Proprietors of such Notes, and the payment of the established fees, transmit them to the Accountant General in Bengal for the purpose of being renewed, or sub-divided free of all further expence. In other respects the practice and rules heretofore in use in regard to the renewal and subdivision of Promissory Notes will be adhered to.

11. The Notes of this Loan shall be advertised for discharge relatively to the 5 per cent. Loans of 18 and 16th January 1830, in the order of their date, the several Notes of this Loan shall be advertised for payment in the inverse order, in which they shall have been placed on the General Register, that is to say the Notes last brought on the Register shall be first liable to be discharged. But all Notes advertised at the same time for payment shall become payable on demand, without regard to priority, at the expiration of the notice. Government shall also be at liberty to advertise other Notes for payment without waiting the expiration of pending notices, and to discharge Notes so subsequently advertised at the expiration of the notice relating to them, notwithstanding the orders of Notes comprised in prior advertisements have omitted by themselves, or their Attornies authorised to apply for payment.

LEGISLATIVE DEPARTMENT,  
THE 5TH APRIL, 1841.

The following Draft of a proposed Act was read in Council for the first time on the 5th of April, 1841.

ACT No. — OF 1841.

*An Act for amending the law with respect to the limitation of suits and summary proceedings.*

I. Whereas it is expedient to extend to Her Majesty's Supreme Courts within the territories of

the East India Company various amendments recently made in the English statute law respecting the limitation of suits. And whereas it is also expedient to modify the law with respect to the limitation of suits as administered in the Courts of the East India Company and to consolidate various enactments upon that subject applicable to different Presidencies. And whereas it is also expedient to enact some provisions for limiting the period of certain legal proceedings with reference as well to the law of England as to the Regulations of the different Presidencies;—

It is hereby enacted, that so much of the statutes 2 and 3 Will. IV. Chap. LXXI., 3 and 4 Will. IV. Chap. XLII., 3 and 4 Will. IV. Chap. XXVII. as relates to the limitation of suits, and so much of the same as relates to forms of action abolished by those statutes or any of them shall be extended to Her Majesty's Courts within the territories of the East India Company. Provided always that wherever in those statutes any period is limited with reference to the time of passing the same, the corresponding period in the present Act shall be six months from the time of passing thereof.

II. And it is hereby enacted, that the several Courts of the East India Company are prohibited, except for special and sufficient reasons to be stated on the face of the decree, from trying any suit other than for the recovery of immoveable property or of some right derived from such property, or any suit for reviving a decree as hereinafter mentioned, if the cause of action shall have arisen six years before the commencement of such suit.

III. And it is hereby enacted, that the Courts of the East India Company aforesaid are prohibited from trying any suit for the recovery of immoveable property or for any right derived out of such property if the cause of action shall have arisen twelve years before the commencement of such suit.

IV. And it is hereby enacted, that no decree of any Civil Court of the East India Company shall be executed summarily in the manner now prescribed by the regulations unless application for the same shall have been preferred within the period of one year from the date on which the decree may have been passed.

V. And it is hereby enacted, that every application for the execution of a decree of any such Civil Court as aforesaid preferred after the expiration of one year from the time of passing thereof shall be considered as a suit instituted to revive the execution of the same, and shall be subject to the rules enacted by Regulation IV. 1793 and the other regulations in force, for receiving, trying and deciding suits declared cognizable by Civil Courts of Judicature, and to the several Stamp Duties prescribed by Clause 8, Sec. B., Regulation X. of 1829 on the institution of suits and appeals in those Courts; provided always that no Stamp Duty or fees payable by the plaintiff in any such suit for reviving a decree shall in any case be recoverable from the defendant; and provided also that in any such suit the defendant shall not be allowed to impugn the merits of the original decree.

VI. And it is hereby enacted, that if any person shall at the time of the cause of action first accruing be under any of the disabilities of infancy, idiotry, lunacy, or absence beyond seas, then such person, or the person claiming through him, may commence a suit in any such Civil Court as aforesaid within three years after the person to whom the right shall have first accrued as aforesaid shall have ceased to be under any such disability, or shall have died (whichever shall have first happened.) Provided always that the disability by reason of absence beyond seas shall in no case be admissible beyond the period of 20 years.

VII. And it is hereby enacted, in regard to suits in such Civil Courts as aforesaid, that when any person shall be under any of the disabilities aforesaid at the time when the cause of action first accrues, and such disability may have been removed or the party may have died under such disability, no further period for commencing a suit shall be allowed by reason of any disability of any other person.

VIII. And it is hereby enacted, in regard to suits in such Civil Courts as aforesaid that in every case of a concealed fraud the right to bring a suit shall be deemed to have first accrued at and not

before the time at which such fraud shall, or with reasonable diligence might have been first known or discovered.

IX. And it is hereby enacted, in regard to suits in such Civil Courts as aforesaid that the cause of action for the recovery of immovable property or rights derived therefrom shall be deemed to have first accrued when the claimant shall in respect of the Estate or interest claimed have been in possession or in receipt of the profits or of rent, and shall while entitled thereto have been dispossessed or have discontinued in such possession or receipt, then such cause of action shall be deemed to have first accrued at the time of such dispossession or discontinuance of possession, or at the last time at which any such profits or rent were or was so received. In other cases the cause of action shall be deemed to have first accrued when the claimant was first entitled to the possession of the Estate or interest claimed. Provided always that no possession by a mortgagee or depositary, or any person claiming under them, shall be deemed adverse so as to bar the remedy of any claimant by reason of length of time unless where the person claiming under any such mortgagee or depositary shall have held possession for the space of 12 years, without recognizing the title of the claimant and shall have obtained possession under a title bonâ fide believed to have conveyed an absolute right of property.

X. And it is hereby provided, in regard to suits in such Civil Courts as aforesaid that any acknowledgement in writing and signed shall preclude the person signing the same from pleading the aforesaid limitations against the party in whose favor such acknowledgement may have been given, except so far as relates to the lapse of time after the date of such acknowledgement, or the last of such acknowledgements.

XI. And it is hereby enacted, that all suits for penal damages brought in any such Civil Courts as aforesaid shall be preferred within one year after the cause of action shall have arisen, and that no period be allowed for disabilities in such cases.

XII. And it is hereby enacted, that no conviction before any Magistrate or Justice of the Peace for any offence punishable by fine, or by fine and imprisonment, shall be deemed valid, unless the offence shall have been committed within one year from the date of such conviction.

XIII. And it is hereby provided, that this Act shall not extend to any suits for the recovery of the public revenue, or for any public right or claim whatever.

XIV. And it is hereby provided, that all suits that may be now pending or that may be instituted within the period of six months from the date of the passing of this Act, shall be tried and determined in the same way that they might have been at any time before the passing of this Act.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 5th day of July next.

CALCUTTA COLLECTORATE, 15TH MARCH 1841.

**N**OTICE is hereby given, that for the purpose of having a correct record of all the Lands in Dhee Panchawnogoon, the number of Tenures into which they are divided, the Rent payable on each, the names of the actual Holders, and of all necessary particulars calculated not only to shew at once the parties who may in each case be actually responsible for the Ground Rent, but also to prevent losses and disputes to any parties hereafter, the Government have resolved, under the Provisions of Regulation VII. of 1822, extended to Bengal by Regulation IX. of 1825, to cause a Survey and Measurement of those Lands to be made under the superintendence of an Uncovenanted Deputy Collector, appointed under Regulation IX. of 1833. It is at the same time notified, that Government, in coming to this Resolution, does not intend to enhance the rates of Rent now fixed upon any of the hereditary and permanent Tenures in Panchawnogoon, but merely to have them correctly recorded as they now exist in the names of their actual Holders or Owners. With a view moreover to prevent the advantages of the proposed Survey and Measurement being lost either to Government or to individuals, the attention of Holders of Land is particularly requested to the Provisions of Clause VIII., Section XV., Regulation VII. of 1799, by which they are required to Register in the Office of the Collector of the District all Transfers, Successions, or Divisions of their Lands whenever any such changes may take place, and Notice is hereby given, that from and after the completion of the proposed Survey and Measurement, this Office will adopt measures to secure a strict observance of the Rule adverted to by all Landholders in Dhee Panchawnogoon. Mr. M. Crow has been appointed Deputy Collector for the Survey and Measurement of Panchawnogoon.

7. The several Officers authorised to receive subscriptions will, on application from the Holders of Acknowledgments, transmit them (free of every expense whatever) to the Accountant General in Bengal, to be exchanged for Promissory Notes bearing interest from the 30th of June, or 31st December next ensuing after the date of subscription. The interest accruing on the broken period of the half year, that may intervene between the date of subscription and the 30th of June, or 31st December next ensuing, as the case may be, will be paid up at the time of granting the Acknowledgment.

8. Proprietors of Notes who may require the interest to be paid at the General Treasury of Fort St. George, shall be entitled to receive it accordingly, provided they previously notify their wish to the Accountant General at Fort William, and present the Notes to him to have an order for the payment

And after such order shall, on the application of the Proprietor, be inscribed on any Note the interest shall be payable only from the said Treasury, unless the Proprietor shall present the Note with an application for the purpose of transferring the payment to Bengal, to the Accountant General at Fort St. George, who, on such application being so made, will cancel the said order by writing inscribed as aforesaid, under the signature of himself or his Deputy, a similar course will be followed, *mutatis mutandis*, in the case of Proprietors of Notes who may desire to have the interest thereof paid at the General Treasury of Bombay.

9. The Proprietors of Acknowledgments, who may desire to have the interest of the Promissory Notes to be issued on exchange thereof, to be made immediately payable at Madras or Bombay, must express their desire to that effect on the face of the Acknowledgments, before transmitting them to the Accountant General at Fort William, who will make the interest payable accordingly in the manner and subject to the conditions above stated.

10. The Promissory Notes of this Loan shall not be renewed or subdivided except by the Accountant General at Fort William. But the Accountants General at Fort St. George and Bombay will, on application of the Proprietors of such Notes, and the payment of the established fees, transmit them to the Accountant General in Bengal for the purpose of being renewed, or sub-divided free of all further expence. In other respects the practice and rules heretofore in use in regard to the renewal and subdivision of Promissory Notes will be adhered to.

11. The Notes of this Loan shall be advertised for discharge relatively to the 5 per cent. Loans of 1825, and 16th January 1830, in the order of their date, and the several Notes of this Loan shall be advertised for payment in the inverse order, in which they shall have been placed on the General Register, that is to say, the Notes last brought on the Register shall be first liable to be discharged. But all Notes advertised at the same time for payment shall become payable on demand, without regard to priority, at the expiration of the notice. Government shall also be at liberty to advertise other Notes for payment without waiting for the expiration of pending notices, and to discharge the Notes so subsequently advertised at the expiration of the notice relating to them, notwithstanding the Holders of Notes comprised in prior advertisements may have omitted by themselves, or their Attornies duly authorised to apply for payment.

LEGISLATIVE DEPARTMENT,  
THE 5TH APRIL, 1841.

The following Draft of a proposed Act was read in Council for the first time on the 5th of April, 1841.

ACT No. — OF 1841.

*An Act for amending the law with respect to the limitation of suits and summary proceedings.*

I. Whereas it is expedient to extend to Her Majesty's Supreme Courts within the territories of the East India Company various amendments recently made in the English statute law respecting the limitation of suits. And whereas it is also expedient to modify the law with respect to the limitation of suits as administered in the Courts of the East India Company and to consolidate various enactments upon that subject applicable to different Presidencies. And whereas it is also expedient to enact some provisions for limiting the period of certain legal proceedings with reference as well to the law of England as to the Regulations of the different Presidencies;—

It is hereby enacted, that so much of the statutes 2 and 3 Will. IV. Chap. LXXI., 3 and 4 Will IV. Chap. XLII., 3 and 4 Will. IV. Chap. XXVII. as relates to the limitation of suits, and so much of the same as relates to forms of action abolished by those statutes or any of them shall be extended to Her Majesty's Courts within the territories of the East India Company. Provided always that wherever in those statutes any period is limited with reference to the time of passing the same, the corresponding period in the present Act shall be six months from the time of passing thereof.

II. And it is hereby enacted, that the several Courts of the East India Company are prohibited, except for special and sufficient reasons to be stated on the face of the decree, from trying any suit other than for the recovery of immoveable property or of some right derived from such property, or any suit for reviving a decree as hereinafter mentioned, if the cause of action shall have arisen six years before the commencement of such suit.

III. And it is hereby enacted, that the Courts of the East India Company aforesaid are prohibited from trying any suit for the recovery of immoveable property or for any right derived out of such property if the cause of action shall have arisen twelve years before the commencement of such suit.

IV. And it is hereby enacted, that no decree of any Civil Court of the East India Company shall be executed summarily in the manner now prescribed by the regulations unless application for the same shall have been preferred within the period of one year from the date on which the decree may have been passed.

V. And it is hereby enacted, that every application for the execution of a decree of any such Civil Court as aforesaid preferred after the expiration of one year from the time of passing thereof shall be considered as a suit instituted to revive the execution of the same, and shall be subject to the rules enacted by Regulation IV. 1793 and the other regulations in force, for receiving, trying and deciding suits declared cognizable by Civil Courts of Judicature, and to the several Stamp Duties prescribed by Clause 8, Sch. B., Regulation X. of 1829 on the institution of suits and appeals in those Courts; provided always that no Stamp Duty or fees payable by the plaintiff in any such suit for reviving a decree shall in any case be recoverable from the defendant; and provided also that in any such suit the defendant shall not be allowed to impugn the merits of the original decree.

VI. And it is hereby enacted, that if any person shall at the time of the cause of action first accruing be under any of the disabilities of infancy, idiocy, lunacy, or absence beyond seas, then such person, or the person claiming through him, may commence a suit in any such Civil Court as aforesaid within three years after the person to whom the right shall have first accrued as aforesaid shall have ceased to be under any such disability, or shall have died (whichever shall have first happened.) Provided always that the disability by reason of absence beyond seas shall in no case be admissible beyond the period of 20 years.

VII. And it is hereby enacted, in regard to suits in such Civil Courts as aforesaid, that when any person shall be under any of the disabilities aforesaid at the time when the cause of action first accrues, and such disability may have been removed or the party may have died under such disability, no further period for commencing a suit shall be allowed by reason of any disability of any other person.

VIII. And it is hereby enacted, in regard to suits in such Civil Courts as aforesaid that in every case of a concealed fraud the right to bring a suit shall be deemed to have first accrued at and not before the time at which such fraud shall, or with reasonable diligence might have been first known or discovered.

IX. And it is hereby enacted, in regard to suits in such Civil Courts as aforesaid that the cause of action for the recovery of immoveable property or rights derived therefrom shall be deemed to have first accrued when the claimant shall in respect of the Estate or interest claimed have been in possession or in receipt of the profits or of rent, and shall while entitled thereto have been dispossessed or have discontinued in such possession or receipt, then such cause of action shall be deemed to have first accrued at the time of such dispossession or discontinuance of possession, or at the last time at which any such profits or rent were or was so received. In other cases the cause of action shall be deemed to have first accrued when the claimant was first entitled to the possession of the Estate or interest claimed. Provided always that no possession by a mortgagee or depositary, or any person claiming under them, shall be deemed adverse so as to bar the remedy of any claimant by reason of length of time unless where the person claiming under any such mortgagee or depositary shall have held possession for the space of 12 years, without recognizing the title of the claimant and shall have obtained possession under a title bona fide

believed to have conveyed an absolute right of property.

X. And it is hereby provided, in regard to suits in such Civil Courts as aforesaid that any acknowledgement in writing and signed shall preclude the person signing the same from pleading the aforesaid limitations against the party in whose favor such acknowledgement may have been given, except so far as relates to the lapse of time after the date of such acknowledgement, or the last of such acknowledgements.

XI. And it is hereby enacted, that all suits for penal damages brought in any such Civil Courts as aforesaid shall be preferred within one year after the cause of action shall have arisen, and that no period be allowed for disabilities in such cases.

XII. And it is hereby enacted, that no conviction before any Magistrate or Justice of the Peace for any offence punishable by fine, or by fine and imprisonment, shall be deemed valid, unless the offence shall have been committed within one year from the date of such conviction.

XIII. And it is hereby provided, that this Act shall not extend to any suits for the recovery of the public revenue, or for any public right or claim whatever.

XIV. And it is hereby provided that all suits that may be now pending or that may be instituted within the period of six months from the date of the passing of this Act, shall be tried and determined in the same way that they might have been at any time before the passing of this Act.

CALCUTTA COLLECTORATE, 15TH MARCH 1841.

**N**OTICE is hereby given, that for the purpose of having a correct record of all the Lands in Dhee Puchawnogooan, the number of Tenures into which they are divided, the Rent payable on each, the names of the actual Holders, and of all necessary particulars calculated not only to shew at once the parties who may in each case be actually responsible for the Ground Rent, but also to prevent losses and disputes to any parties hereafter, the Government have resolved, under the Provisions of Regulation VII. of 1822, extended to Bengal by Regulation IX. of 1825, to cause a Survey and Measurement of those Lands to be made under the superintendence of an Uncovenanted Deputy Collector, appointed under Regulation IX. of 1833. It is at the same time notified, that Government, in coming to this Resolution, does not intend to enhance the rates of Rent now fixed upon any of the hereditary and permanent Tenures in Puchawnogooan, but merely to have them correctly recorded as they now exist in the names of their actual Holders or Owners. With a view moreover to prevent the advantages of the proposed Survey and Measurement being lost either to Government or to individuals, the attention of Holders of Land is particularly requested to the Provisions of Clause VIII., Section XV., Regulation VII. of 1799, by which they are required to Register in the Office of the Collector of the District all Transfers, Successions, or Divisions of their Lands whenever any such changes may take place, and Notice is hereby given, that from and after the completion of the proposed Survey and Measurement, this Office will adopt measures to secure a strict observance of the Rule adverted to by all Landholders in Dhee Puchawnogooan. MESSRS. GRINDLAY, CHRISTIAN, & MATTHEWS.

**T**HE numerous communications which have been addressed to Captain Grindlay from all parts of India, conveying the most flattering approbation of the manner in which his duties to his constituents have hitherto been performed, and the most cordial assurances of support to the new Firm, commenced in November, 1838, are felt by him to call for a public expression of gratitude.

In thus offering his thanks for the extensive and honorable patronage long afforded to the Establishment under his sole management, and now so kindly promised to the Firm of GRINDLAY, CHRISTIAN AND MATTHEWS, he begs to assure his numerous friends and well wishers, that the efforts of himself and his partners will be unremittingly directed to merit the continued confidence reposed in them by the various branches of the Indian community, both at home and abroad.

FORT WILLIAM,  
LEGISLATIVE DEPARTMENT,  
THE 5TH APRIL, 1841.

The following Draft of a proposed Act was read in Council for the first time on the 5th of April, 1841.

ACT No. — OF 1841.

An Act for amending the law with respect to the limitation of suits and summary proceedings.

I. Whereas it is expedient to extend to Her Majesty's Supreme Courts within the territories of the East India Company various amendments recently made in the English statute law respecting the limitation of suits: And whereas it is also expedient to modify the law with respect to the limitation of suits as administered in the Courts of the East India Company and to consolidate various enactments upon that subject applicable to different Presidencies. And whereas it is also expedient to enact some provisions for limiting the period of certain legal proceedings with reference as well to the law of England as to the Regulations of the different Presidencies:—

It is hereby enacted, that so much of the statutes 2 and 3 Will. IV. Chap. LXXI., 3 and 4 Will. IV. Chap. XLII., 3 and 4 Will. IV. Chap. XXVII. as relates to the limitation of suits, and so much of the same as relates to forms of action abolished by those statutes or any of them shall be extended to Her Majesty's Courts within the territories of the East India Company. Provided always that wherever in those statutes any period is limited with reference to the time of passing the same, the corresponding period in the present Act shall be six months from the time of passing thereof.

II. And it is hereby enacted, that the several Courts of the East India Company are prohibited, except for special and sufficient reasons to be stated on the face of the decree, from trying any suit other than for the recovery of immoveable property or of some right derived from such property, or any suit for reviving a decree as hereinafter mentioned, if the cause of action shall have arisen six years before the commencement of such suit.

III. And it is hereby enacted, that the Courts of the East India Company aforesaid are prohibited from trying any suit for the recovery of immoveable property or for any right derived out of such property if the cause of action shall have arisen twelve years before the commencement of such suit.

IV. And it is hereby enacted, that no decree of any Civil Court of the East India Company shall be executed summarily in the manner now prescribed by the regulations unless application for the same shall have been preferred within the period of one year from the date on which the decree may have been passed.

V. And it is hereby enacted, that every application for the execution of a decree of any such Civil Court shall be preferred after the expiration of

one year from the time of passing thereof shall be considered as a suit instituted to revive the execution of the same, and shall be subject to the rules enacted by Regulation IV. 1793 and the other regulations in force, for receiving, trying and deciding suits declared cognizable by Civil Courts of Judicature, and to the several Stamp Duties prescribed by Clause 8, Sch. B., Regulation X. of 1829 on the institution of suits and appeals in those Courts; provided always that no Stamp Duty or fees payable by the plaintiff in any such suit for reviving a decree shall in any case be recoverable from the defendant; and provided also that in any such suit the defendant shall not be allowed to impugn the merits of the original decree.

VI. And it is hereby enacted, that if any person shall at the time of the cause of action first accruing be under any of the disabilities of Infancy, idiocy, lunacy, or absence beyond seas, then such person, or the person claiming through him, may commence a suit in any such Civil Court as aforesaid within three years after the person to whom the right shall have first accrued as aforesaid shall have ceased to be under any such disability, or shall have died (whichever shall have first happened.) Provided always that the disability by reason of absence beyond seas shall in no case be admissible beyond the period of 20 years.

VII. And it is hereby enacted, in regard to suits in such Civil Courts as aforesaid, that when any person shall be under any of the disabilities aforesaid at the time when the cause of action first accrues, and such disability may have been removed or the party may have died under such disability, no further period for commencing a suit shall be allowed by reason of any disability of any other person.

VIII. And it is hereby enacted, in regard to suits in such Civil Courts as aforesaid that in every case of a concealed fraud the right to bring a suit shall be deemed to have first accrued at and not before the time at which such fraud shall, or with reasonable diligence might have been first known or discovered.

IX. And it is hereby enacted, in regard to suits in such Civil Courts as aforesaid that the cause of action for the recovery of immoveable property or rights derived therefrom shall be deemed to have first accrued when the claimant shall in respect of the Estate or interest claimed have been in possession or in receipt of the profits or of rent, and shall while entitled thereto have been dispossessed or have discontinued in such possession or receipt, then such cause of action shall be deemed to have first accrued at the time of such dispossession or discontinuance of possession, or at the last time at which any such profits or rent were or was so received. In other cases the cause of action shall be deemed to have first accrued when the claimant was first entitled to the possession of the Estate or interest claimed. Provided always that no possession by a mortgagee or depositary, or any person claiming under them, shall be deemed adverse so as to bar the remedy of any claimant by reason of length of time unless where the person claiming under any such mortgagee or depositary shall have held possession for the space of 12 years, without recognizing the title of the claimant and shall have obtained possession under a title bonâ fide believed to have conveyed an absolute right of property.

X. And it is hereby provided, in regard to suits in such Civil Courts as aforesaid that any acknowledgement in writing and signed shall preclude the person signing the same from pleading the aforesaid limitations against the party in whose favor such acknowledgement may have been given, except so far as relates to the lapse of time after the date of such acknowledgement, or the last of such acknowledgements.

XI. And it is hereby enacted, that all suits for penal damages brought in any such Civil Courts as aforesaid shall be preferred within one year after the cause of action shall have arisen, and that no period be allowed for disabilities in such cases.

XII. And it is hereby enacted, that no conviction before any Magistrate or Justice of the Peace for any offence punishable by fine, or by fine and imprisonment, shall be deemed valid, unless the offence shall have been committed within one year from the date of such conviction.

XIII. And it is hereby provided, that this Act shall not extend to any suits for the recovery of the

public revenue, or for any public right or claim whatever.

XIV. And it is hereby provided, that all suits that may be now pending or that may be instituted within the period of six months from the date of the passing of this Act, shall be tried and determined in the same way that they might have been at any time before the passing of this Act.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India after the 5th day of July next.

#### OVERLAND LETTERS AND POSTAGE.

IT is hereby notified for general information—

First.—That all Letters and Newspapers, except Soldiers' and Sailors' Letters, intended for transmission by

the Overland Mails, and except those specially marked "via Falmouth," will be sent through France, and thus be subject to the heavier rate of postage.

Second.—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c., for places lying between Bombay and Marseilles, will be despatched in separate Packets.

Third.—Letters for the United Kingdom of Great Britain, weighing less than a quarter of an ounce, and passing through France, are charged single postage, which by that route amounts to 2s. 8d. By the Falmouth route, Letters of half an ounce in weight, are subject to single postage only, which by that route, has now been reduced to 1s.

Newspapers, if sent via Falmouth, are free of postage, but if transmitted by the way of Marseilles, they are charged 2d. each.

CALCUTTA COLLECTORATE, 15th MARCH 1841.

**NOTICE** is hereby given, that for the purpose of having a correct record of all the Lands in Dhee Purnahwanoan, the number of Tenures into which they are divided, the Rent payable on each, the names of the actual Holders, and of all necessary particulars calculated not only to shew at once the parties who may in each case be actually responsible for the Ground Rent, but also to prevent losses and disputes to any parties hereafter, the Government have resolved, under the Provisions of Regulation VII. of 1822, extended to Bengal by Regulation IX. of 1825, to cause a Survey and Measurement of those Lands to be made under the superintendence of an Uncovenanted Deputy Collector, appointed under Regulation IX. of 1833. It is at the same time notified, that Government, in coming to this Resolution, does not intend to enhance the rates of Rent now fixed upon any of the hereditary and permanent Tenures in Purnahwanoan, but merely to have them correctly recorded as they now exist in the names of their actual Holders or Owners. With a view moreover to prevent the advantages of the proposed Survey and Measurement being lost either to Government or to individuals, the attention of Holders of Land is particularly requested to the Provisions of Clause VIII., Section XV., Regulation VII. of 1799, by which they are required to Register in the Office of the Collector of the District all Transfers, Successions, or Divisions of their Lands whenever any such changes may take place, and Notice is hereby given, that from and after the completion of the proposed Survey and Measurement, this Office will adopt measures to secure a strict observance of the Rule adverted to by all Landholders in Dhee Purnahwanoan. Mr. M. Crow has been appointed Deputy Collector for the Survey and Measurement of Purnahwanoan.

FORT WILLIAM,  
LEGISLATIVE DEPARTMENT,

THE 12TH APRIL, 1841.

The following Act passed by the Right Hon'ble the Governor General of India in Council on the 12th April 1841, is hereby promulgated for general information.

Act No. I. of 1841.

*An Act for facilitating the collection of the Revenue of Government and defining the interest intended to be conveyed by public sales for the realization of arrears of the Public Revenue in Putteedarree Estates.*

*Preamble.* I. The Regulations in force authorize the application of dures for enforcing the payment of arrears of the public revenue, only against the person and property of the Contracting Lumberdar, leaving him to proceed against the Putteedars by suit or distraint. But with reference to the peculiar nature of these Coparcenaries the existing enactments appear to be insufficient, on the one hand for the

protection of the rights of the Putteedars, and on the other hand for the punctual realization of the dues of Government. The Regulations are also deficient in not authorizing with sufficient distinctness the sale or transfer of the Puttees of defaulting Putteedars in Putteedarree Estates, and in not defining the interest intended to be conveyed by public sales of such Estates.

II. A Putteedarree Estate in this Act is held to be an Estate which consists of two or more separate portions or Puttees, or of which there may be proprietors, possessed of separate properties and holding direct of the Government, but not parties in their own names to the contract with the Government for payment of the public revenue. The proprietor who is a party in his own name is called a Lumberdar, and the proprietor who is not a party in his own name is called a Putteedar.

III. It is hereby enacted, that the following modes of duress may be enforced against all Putteedars whose tenure and interest may have been defined by a Settlement formed according to Regulation VII. of 1822 as modified by Regulation IX. of 1833, whether every such Putteedar be in sole occupation of his Puttee, or hold it in common with others.

1st. Issue of Dustucks in the same manner, and under the same limitation, as authorized by the rules in force for Lumberdars.

2d. Arrest, detention, imprisonment, distraint and sale of personal property as now authorized to be enforced against Lumberdars.

3d. Transfer of the defaulting Puttee in perpetuity to the members of any other Puttee which may not be in arrear.

4th. Annulment of the Settlement as regards the defaulting Puttee, and lease thereof to the members of any other Puttee which may not be in arrear or to a stranger for any term not exceeding fifteen years.

5th. Sale of the defaulting Puttee by public auction in which case the members of the remaining Puttees who may not be in arrear are authorized to bid.

IV. And it is hereby enacted, that on occasion of the sale by public auction of any Puttee, if the lot shall have been knocked down to a stranger, any Putteedar or other member of the coparcenary not being himself in arrear may claim to take the said Puttee at the sum last bid, provided that the said demand of pre-emption be made on the day of sale and before the Collector shall have left the office, and provided that the claimant fulfil all the other conditions of the sale.

V. And it is hereby enacted, that the above methods be employed by the Collector or other Officer vested with the powers of Collector, under such limitation and control as Government or other superior revenue authorities shall see fit to prescribe or enforce.

VI. And it is hereby enacted, that the sale of any Puttee by public auction, shall be effected in respect to the notice to be issued, the authority to be obtained, and the mode of conducting the sale according to the rules prescribed by Law from time to time for the sale of an entire Mehal, and the Puttee after the sale shall have been duly confirmed shall be the absolute property of the purchaser, save and except the rights of those Ryots whose right to the permanent occupancy of their lands may have been recognized, and the rates of rent payable by whom may have been adjusted and recorded at the last settlement.

VII. And it is hereby enacted, that in case of the lease or other temporary transfer of any Puttee as above said no member of that Puttee shall be entitled to cultivate any land therein during the term of such transfer, or in case of absolute sale no member of the Puttee shall be entitled to hold or cultivate any land therefrom, and after the month of Bysack next succeeding such sale unless the said member of such sold or transferred Puttee shall first execute a written engagement to payment to the purchaser or transferee at the rate demanded by the purchaser or transferee. Provided that it shall be competent to the Collector, subject to the orders of the Commissioner and the Sudder Board of Revenue, if the rate cannot be fixed by private bargain between the parties to cause the same to be fixed by a jury of the vicinage in the mode directed by Sections V. to X. Regulation IX. of 1833.

VIII. And it is hereby enacted, that a copy of the Jumma Wasil Batee and detailed Kuteonee of the Tehsildar signed and sealed by him, and countersigned by the Canoongoes and Putwarry exhibiting in detail the amount paid by and arrear due from each Puttee shall be taken to be sufficient evidence of the arrear due from that Puttee, and these papers shall invariably be filed with the Collector's proceedings.

IX. And be it enacted, that the Collector be empowered to give possession to all purchasers and transferees under this Act in the mode authorized by Clause III. Section XXIII. of Regulation VII. of 1822.

X. And it is hereby enacted, that nothing contained in this Act shall bar the indefeasible right of Government to hold the entire body of proprietors and the entire estate responsible for the amount of the whole Jumma, and to enforce the existing regulations for the transfer or sale of the whole estate whenever it shall appear to them just and expedient. In every such case it is hereby declared in modification of Regulation XI. of 1822, that the entire proprietary rights of every member of the coparcenary shall be annulled and forfeited, and the provision of Section V. of this Act shall be applicable to every member of the Coparcenary.

XI. And it is hereby enacted, that the Governor General in Council may extend the provisions of this Act to any district to which with reference to the nature of the tenures prevalent therein its extension may be expedient, although no Settlement of such district may have been made under Regulations VII. of 1822, and IX. of 1833 and the Order of Government shall be sufficient authority for such extension.

CHARING CROSS.

Messrs. GRINDLAY, CHRISTIAN, & MATTHEWS.

**T**HE numerous communications which have been addressed to Captain Grindlay from all parts of India, conveying the most flattering approbation of the manner in which his duties to his constituents have hitherto been performed, and the most cordial assurances of support to the new Firm, commenced in November, 1838, are felt by him to call for a public expression of gratitude.

In thus offering his thanks for the extensive and honorable patronage long afforded to the Establishment under his sole management, and now so kindly promised to the Firm of GRINDLAY, CHRISTIAN AND MATTHEWS, he begs to assure his numerous friends and well wishers, that the efforts of himself and his partners will be unremittingly directed to merit the continued confidence reposed in them by the various branches of the Indian community, both at home and abroad.

The high character attained by the Establishment under his superintendence has been the result of many years' perseverance.—Its pretensions were tested by experience, and the value of the facilities which it afforded for the dispatch of business, tried and vouchsafed for by a large proportion of those whose engagements led them to India. It is acknowledged with pride, that success followed exertion, and the means have thus been obtained of increasing the resources of the Establishment and greatly enlarging the circle of its usefulness.

In conclusion, Messrs. GRINDLAY, CHRISTIAN AND MATTHEWS have only to remind their Subscribers and the Public at large, that they continue to transact every description of business connected with India and the Colonies.

Parties desiring to support this Agency are informed that Subscriptions of 12 Rupees per annum will be received by

### SECRET DEPARTMENT, THE 20TH APRIL 1841. NOTIFICATION.

The Right Honorable the Governor General in Council has great satisfaction in publishing, for general information, the following details of brilliant successes which have been recently achieved in China, ending in the entire destruction of the defences of Canton, and in the placing of that City at the mercy of Her Majesty's Forces.

His Lordship in Council has directed a Royal Salute to be fired in honor of this occasion.

*Secy. to Govt.*

*Wallasley, off North Wangtung.  
March 10th, 1841.*

TO THE RIGHT HON'BLE GEORGE, EARL OF  
AUCKLAND, G. C. B., &c. &c. &c.,  
*Governor General of India*

MY LORD,—It is with feelings of gratification I have the honor to announce to you, that the Forts of the Bocca Tigris, together with every other of the Chinese Defences with which we are acquainted, have fallen to Her Majesty's Arms; the British Flag flying on the Fortress of Wangtung, in which is a Garrison, and all the other Batteries have been blown up, and utterly destroyed, and as I am aware of the intense interest which is felt by your Lordship, I avail myself of the earliest opportunity of forwarding to you a detail of the events which have led to this result.

On the 20th January, the preliminaries of a treaty of peace were agreed upon by H. M. Plenipotentiary, under the seal of the Chinese Commissioner, one of the conditions of which, was the cession of the Island of Hong Kong to Her Majesty, and the restoration of Chuenpee and Tyookow Tow to the Chinese, together with the evacuation of Chusan at the earliest possible period. His Excellency in consequence requested me to move the Force from the immediate neighbourhood of the Bocca Tigris, and having made the necessary arrangements with the Chinese Admiral Commanding in Chief, the forts were delivered to his officers under the usual salutes on the 21st, and the Fleet proceeded to the anchorage off the West end of Lantao Island.

Her Majesty's Plenipotentiary and the Imperial Commissioner having arranged to have a formal meeting at the Second Bar, in the River, on the 26th, I detached the Calliope and Larne, and Madagascar and Nemesis Steamers to the Bocca Tigris, under the immediate command of Captain Herbert of the Calliope; a guard of honor, composed of 100 picked men of the Royal Marine, under

the command of Captain Ellis, R. N., of the Wellesley and the Band of that ship were embarked. Captains the Hon. R. S. Dundas and Maitland, of Melville and Wellesley, together with as many of the Officers of the Fleet as could be spared, accompanied His Excellency; the party was received with every possible mark of distinction and respect, the Troops were drawn up on the Ramparts of the Forts, and Salutes fired from all; a sumptuous entertainment had been prepared, to which the officers were invited, after having been presented to the High Commissioner, and the Negotiations proceeded in a satisfactory manner, the particulars of which have been stated by the Plenipotentiary to H. M. Government.

On the same day I proceeded to Hong Kong, and took formal possession of the Island in Her Majesty's name, and hoisted the Colors on it, with the usual salutes and ceremonies. By the terms of the treaty, the Port of Canton was to be opened to the trade of all nations, on the 2d February, and as a proof of the sincere desire on the part of the British Functionary, to evince good faith, I had, at his request, sent the Columbine to Chusan, and an overland despatch by the hands of a Chinese Special Messenger, directing Brigadier Burrell, and Captain Bouchier of H. M. S. Blonde, to use every effort to embark the Stores, and Troops, &c. and to restore the Island to the Chinese authorities.

The Proclamation for opening the Port on the 2d did not appear, and on the 11th, the two Ministers again met at the Bocca Tigris, and after a discussion of several hours, on this day and on the next, Her Majesty's Plenipotentiary acceded to a further delay, (not to exceed ten days) in order that the definitive treaty might be fairly prepared. I must confess that from this moment my faith in the sincerity of the Chinese Commissioner was completely destroyed, my doubts were also strengthened by the reports of the Officers I sent up to the place of meeting, who stated, that Military works on a great scale were in progress, Troops collected on the heights; and camps protected by entrenchments arising on both sides of the river, and, that the Island of North Wangtung had become a mass of cannon. These indications being decidedly warlike, I determined to move the light division of H. M.'s Ships at once to Macao roads, and proceeded thither myself on the 13th, to confer with His Excellency the Plenipotentiary, and await events. I found that the treaty, as agreed upon by the Commissioner and Her Majesty's Minister, had been sent up to the Bocca Tigris, for transmission to Canton, by the Nemesis, with orders to await an answer until the night of the 18th, the period the confidential person, employed by the Chinese

Commissioner, had named for the purpose. The accounts daily received by merchants and others at Macao from Canton were of the most hostile character, and an Edict purporting to be from the Emperor, calling on all his Officers to exterminate us was published, together with a proclamation, the authenticity of which I have however been unable to establish, offering 50,000 Dollars for my head, and a like sum for that of the Plenipotentiary. On the morning of the 19th, the *Nemesis* arrived from the *Bocca Tigris* without any reply, and all doubt was at an end, a shot having been fired at her boat from North Wangtung. I instantly detached the light division under Captain Herbert of H. M. S. *Calliope*, (who was accompanied by H. M. Plenipotentiary,) with directions not to run any unnecessary hazard, until the body of the Force came up, but to prevent, as much as possible, any further defensive preparations on the part of the Enemy—I proceeded at the same time to Hong Kong, and weighed with the Ships of the Line, the *Queen* and *Madagascar*, Steamers, leaving the *Druid*, *Jupiter*, and transports to follow.

Captain Herbert, with the Ships under his orders took up a position on the Western Channel off South Wangtung on the 20th, and on the 22d, he proceeded in the *Nemesis*, with some Boats of the Squadron to the Channel at the back of Anunghoy, and destroyed a masked battery of 20 Guns, which opened on them whilst employed clearing the passage, which the Chinese had been endeavouring to obstruct, by driving down poles and mooring rafts across; this service was performed without any loss on our side; the Guns in the Battery were disabled, by knocking off the trunnions, together with 60 found dismounted; the Magazines, &c. were burnt, the Enemy left about 30 of the number dead, and their colors were taken by Lieut. Bowers, Senior, of H. M. S. *Samarang*.

From the prevalence of Light Winds, the Line of Battle ships and *Druid* were not collected until the 24th. On the 25th I arranged a plan of attack on the formidable Batteries in our front, and of which it may be necessary for me to give some description. Partly surrounding the old fort of Anunghoy, and in advance of it to high-water mark, was a new and well-built battery of granite, forming a segment of about 2-3rds of a circle; on it were mounted 42 Guns, some of them of immense weight and large calibre; several strong entrenchments extended to the Southward of this battery, and the ridges of the hill were crowned with guns, up to a Camp calculated for about 1200 men—at the North side was a straight work of modern erection, mounting 60 heavy guns; about 150 yards of rocky beach intervenes between the end of this battery, and the Northern circular battery, on which 40 guns were mounted; all the works were protected in rear by a high wall extending up the hill, on which were steps, or platforms for firing musketry, and in the interior were the Magazines, Barracks, &c.

On the East end of the Island of North Wangtung is a battery with a double tier of guns defending the passage on that side, and also partly flanking a number of rafts constructed of large masses of timber moored across the river, (about 12 feet apart,) with two anchors each, connected by and supporting four parts of a chain cable, the ends of which were secured under masonry work, one, on South Wangtung, the other on Anunghoy; on the Western end of North Wangtung is a strong Battery of 40 guns, flanked by a field work of 17: indeed, the whole Island is one continued Battery—on the extreme Western side of the Channel, was a Battery of 22 heavy guns, and a field work of 17, protecting an entrenched Camp, containing 1,500 or 2,000 men. South Wangtung was not occupied by the enemy, it was an excellent position, and I therefore caused a work to be thrown upon it during the night of the 25th, and mounted two 8 inch iron, and one 24-pounder Brass Howitzer; at daylight on the 26th, Captain Knowles of the Royal Artillery opened this battery with admirable effect, throwing

Shells, and Rockets into North Wangtung, and occasionally into Anunghoy, which fire was returned by the Chinese with great spirit, from a battery immediately opposite, having also kept up a fire during the greater part of the preceding night, (during the erection of the work,) which slackened towards 2 A. M., and finally ceased.

At 11 o'clock, the breeze springing up, the signal was made, and the Fleet stood in.

The attack on Anunghoy I entrusted to Captain Sir H. Le Fleming Senhouse of H. M. S. *Blenheim*, having with him the *Melville*, *Queen Steamer*, and four Rocket Boats. The *Wellesley*, *Calliope*, *Samarang*, *Druid*, *Herald*, *Alligator*, and *Modeste* were opposed to the Batteries on the South, South-West, and North-West of Wangtung, and the Forts on the Western side of the Channel.

In less than an hour the Batteries on Wangtung were silenced, and the troops (under Major Pratt of the 26th Cameronians) which had been previously embarked in the *Nemesis* and *Madagascar* Steamers, consisting of the detachments of H. M. 26th and 49th Regiments, 37th Madras Native Infantry, and Bengal Volunteers, together with the Royal Marines, were landed, and in a few minutes Masters of the Island, without any loss; 1,300 Chinese surrendered.

The Anunghoy Batteries had now been silenced by the beautiful precision with which the fire of the *Blenheim*, *Melville*, and *Queen* had been directed, and perceiving that the enemy were shaken, Sir Le Fleming Senhouse, at the head of the Marines and small-arm men landed on the Southern battery, and drove them in succession from that, and the two others, and at one o'clock the British colors were flying on the whole chain of these celebrated works; and the animated gallantry displayed by the whole force, convinces me that almost any number of men the Chinese could collect, would not be able to stand before them for a moment.

Our casualties are trifling, five wounded, slightly, in the whole force; the main-top-mast, and fore-yard of the *Blenheim* were shot through, one 32-pounder gun rendered unserviceable, several shot in the hull, and the rigging much cut up: the *Melville's* main-top-mast wounded, and rigging considerably injured; the *Calliope* was struck in several places, and the other ships had merely a few ropes cut. The loss of the enemy was severe, but not so heavy as at Chuenpee, 1,300 (as before stated) having thrown down their arms. I should estimate their killed and wounded at 250 in Wangtung; probably as many in Anunghoy; at which place the Chinese Admiral, Kwan, and several other Mandarines of rank fell. The body of the Admiral was recognized by his family, and taken away the day after the action, under a fire of minute-guns from the *Blenheim*.

On the morning of the 27th, the Light Squadron proceeded up the river, under the command of Captain Herbert of the *Calliope*, and on the day following I was gratified by receiving a despatch from him, reporting, that on their arrival off the 1st Bar, the enemy were observed strongly fortified on the left Bank of the river, close to Whampoa Reach, with upwards of 40 War-Junks, and the Cambridge (formerly an East Indiaman of 900 tons), on approaching within three miles, the *Madagascar* and *Nemesis* Steamers, having on board His Excellency and Captain Herbert proceeded to reconnoitre; and, finding a clear passage, a number of vessels having been sunk; on advancing, a heavy fire was opened on the Steamers, which was returned with great effect; the ships were now brought up, and opened fire on the Junks, Cambridge, and Batteries, which in an hour were nearly silenced, when the Marines, and small-arm men were landed, and stormed the works, driving before them upwards of 2,000 of the Chinese troops, and killing nearly 300. In about half an hour after landing, all the Defences were carried, (though in several places brave and obstinate resistance was made.) At the same time, the Cambridge was boarded, and

carried by the boats of the Calliope, Nemesis, and Modeste, and almost immediately set on fire; the explosion of this vessel's Magazine, must have been heard at Canton. The Fort (mud) mounted on the river front 47 Guns; on the left flank 3; a field work 4; the Cambridge 34; besides 10 mounted in a Junk, making altogether 98 Guns.

The war Junks escaped up the river, where the Ships were prevented pursuing them, by a strong raft placed across the passage. The Guns, and other munitions were destroyed. In this gallant affair the casualties, (considering the opposing force,) are few; 1 killed; 3 dangerously, and 5 slightly, wounded.

On the morning of the 1st Instant I proceeded up the river, to join the advanced Squadron, in the Madagascar Steamer, taking the transport Sophia in tow; Captain Maitland with the Boats and 100 small-arm men, together with the Marines of the Wellesley, accompanied me. The Queen taking the Eagle transport in tow, on board which Ship I had embarked the Marines of the Blenheim, Melville, and Druid, also attended by the boats of those Ships, all being armed with their Guns and Howitzers.

On arriving at Whampoa, I found from Captain Herbert's report, that the enemy were in considerable force at the end of "Junk reach," having as usual sunk several large Junks in the river, and further protected themselves by a strong double line of stakes across it, and large Bamboos and branches of trees between them. On the following morning I detached Commander Belcher, in H. M. S. Sulphur, up Junk river to reconnoitre, that Ship being taken in tow by three of the Wellesley's boats, under command of Lieutenant Symonds, Senior Lieutenant of the latter Ship; on rounding a point on the right bank, they came in front of a low battery of 25 Guns, masked by thick branches of trees which opened a heavy fire on them; Lieutenant Symonds instantly cut the tow rope, and gallantly dashed into the battery, driving the enemy before him, and killing several of their number. The Sulphur anchored, and some shot from her completely routed them from the thick underwood in the vicinity, in which they had taken shelter, the guns were destroyed, and the magazine, and other consumable materiel set on fire. The number of troops was probably 250, and they were of the Chosen Tartars; their loss was about 15 or 20 killed—ours was one seaman of the Wellesley mortally wounded, (since dead), and the boats were repeatedly struck by grape shot.

As soon as a cursory survey of the river was made, the Herald, Alligator, Modeste, and Eagle and Sophia transports were pushed forward, within gun shot of Howqua's Fort; and thus, for the first time were ships seen from the Walls of Canton—on the 2d the Cruiser joined me, having on board Major General Sir Hugh Gough, who took Command of the Land Forces. The Pylades and Conway, also joined from Chusan, and the two first named vessels were sent in advance—on the 4th, in concert with the Major General, an attack was planned for the next morning, but on approaching the Fort was found to be abandoned, the British Colors were hoisted; a Garrison of the 26th Regiment was placed in it, and a Company of Royal Marines, under the command of Captain Ellis, R. M., took possession of a large Joss House on the left Bank, (which the enemy were beginning to fortify) and rendered himself secure, while the seamen soon removed some of the stakes and other impediments, and made a clear passage for ships. I may here describe the position.

On the right bank of the river, on the point formed by the mouth of a Creek, (which is a boat-passage to Whampoa) was Howqua's Fort. A square building mounting 30 guns, from the Northern angle, the stakes mentioned extended to the opposite bank, the ground on each side being low Paddy fields, cut and intersected by Canals in all directions. The Joss-house, rather projected into the stream and consequently was a good position.

The river here is about 500 yards wide: 2,000 yards in front is a long low Island, which divides the river into two branches, and on the extreme Eastern point of which stood a Fort, mounting 35 Guns, built to commemorate the discomfiture, and death of the late Lord Napier; from this Fort, a line of well-constructed and secured rafts, (forming a bridge), extended to both sides of the river; on its right bank, flanking Napier's Fort, and the raft, was a mud battery intended for 35 Guns, on the left was a battery, also flanking Napier's Fort, on which the enemy had 44 Guns, most of which they withdrew on the night of the 4th. In addition to these defences, stone Junks were sunk in all parts of the river between the stakes and the left of Napier's Fort, which raft also rested upon sunken Junks, secured on either side within piles.

The position seemed formidable, and on the 5th, the Major General and myself prepared to attack it. He landed at the Joss-house, having with him the Royal Marines, and detachment of 26th, for the purpose of taking the battery on the left bank; the ships weighed, and dropped up with the tide; on the approach of the first ship, the enemy fired all their Guns, and fled across the rafts, and in boats. The British colors were then hoisted.

A Paper was issued calling on the people to place confidence in us, and to avoid hostile movements, in which latter case protection was ensured to them. At noon the Kwang-Chow-Foo, or Prefect, accompanied by the Hong merchants, came down, and after a long discussion with the Plenipotentiary, admitted, that Keshen having been degraded, and the newly appointed Commissioners not having arrived, there was no Government authorized to treat for peace, or make any arrangements, they confessed the truth of the reports we had heard, that the greatest consternation existed in the city, and that every person who could quit it had done so; in fact, that it was at our mercy, and it has so remained, a monument of British magnanimity and forbearance; I fear, however, that the forbearance is misunderstood, and that a further punishment must be resorted to before this arrogant and perfidious Government is brought to reason.

H. M. Plenipotentiary being however desirous to try the effect of another Proclamation, and to show his desire for an equitable adjustment of affairs, addressed the Major General and myself, requesting that we would make no further movement towards the City, until the disposition of the Provincial Government Officers was put to the test, as far as regards their non-interference; and we have consequently remained *in statu quo*, but reports (on which we can rely,) are daily reaching us, which state that five vessels are fitting out about 7 miles above Canton: Forts, in the rear of the City, in course of erection, and the people are forbidden to bring us supplies, while the Teas and Silks, and every other valuable, are removing from it.

These proceedings, so directly contrary to the assurances of pacific intentions, (which they are ever ready to deal forth in profusion,) lead me to the conclusion, that we shall have to proceed even at the risk of the destruction of the second City of the Empire, an event exceedingly likely to occur from its abandonment by the authorities, and the excesses of the lower classes of a community proverbially bad. The responsibility must, however, rest on the heads of those authorities.

I this day returned to Wangtung, accompanied by the Major General, in order that the arrangements in that garrison may be carried out, and plans devised for our further operations.

I have the honor to be,

My Lord,

Your Lordship's most obdt. humble Servant,

J. G. GORDON BREMER,

Commodore and Commander-in-Chief.

TO THE RIGHT HON'BLE GEORGE, EARL OF  
AUCKLAND, G. C. B., &c. &c. &c.  
Governor General of India in Council.  
Wellesley, off Wangtung,  
March 27th, 1841.

MY LORD,—In continuation of my letter of the 10th Instant, I have the satisfaction to inform your Lordship that on the 15th, I received a report from Captain Herbert of Her Majesty's Ship "Calliope," detailing a well executed attack on the only remaining Fort protecting the approaches to the City of Canton. This Fort is situate about 10 miles from the anchorage at Whampoa, up a narrow and intricate Channel which ends in the Broadway, or Macao passage from Canton. The attack commenced about 5 P. M., from the "Modeste," and "Madagascar," steamer, with the Boats of the Squadron, and in half an hour the works were in our possession, the Chinese keeping up a well directed fire until the Boats' Crews were in the act of scaling the Walls, when they gave way and fled in all directions. They were devoting their whole attention to the strengthening of the defences of this post and had rendered it one of the most formidable which had been encountered; I am therefore happy that it is in our hands; the loss of the Chinese is not correctly known; many were found dead in the Fort—our own casualties do not amount to more than three wounded.

The zealous desire of every Officer and man in the Squadron to seek occasions in which to distinguish themselves, has led to the performance of various well executed services; amongst them is the forcing the inner passage from Macao to Whampoa, which was deemed by the Chinese impenetrable to Foreigners. Her Majesty's Plenipotentiary having represented to the Senior Officer in Macao Roads the great advantages likely to accrue by this step, his views were at once acceded to by Captain Scott, and preparations made for carrying it into effect. At 3 A. M. on the 19th the "Nemesis" with the Boats of the "Samarang" in tow weighed from Macao Roads, and proceeded over the flats between Twee-lien-shaw, and Toi-koke-tow Islands to the Broadway river, at 8 A. M. they came in sight of Motao Fort, and the Steamer having taken up an enfilading position, where not a gun of the enemy could bear upon her, opened her fire, whilst the boats proceeded to the attack; on their approach the Chinese abandoned the place; thirteen guns were found mounted which were completely destroyed, the buildings set fire to, and a train laid to the Magazine, which exploded before the boats returned to the "Nemesis." On reaching Point

How—Hoak-Tow the river is divided into two Channels, that to the right takes a sudden sharp turn and becomes very contracted in its breadth, here they discovered Tai-yat-kok, a field battery (very recently constructed) of 14 Guns very strongly posted, on a rising ground, situated on the left bank of the river (surrounded by overflowed paddy fields) which enfiladed the whole line of the reach leading up to it; as the Steamer appeared round the Point, the Enemy opened an animated fire upon her, which was smartly kept up, it was most effectually returned by the two Guns from the "Nemesis" which vessel threw her shot, shells and rockets admirably; the boats advanced under the slight cover of the bank, but before a landing could be effected on their flank, they abandoned the Guns, when possession of the work was taken by a narrow pathway which could only be passed in single files; the Guns were destroyed and the buildings and materiel consigned to the flames and blown up; meanwhile a detachment of the boats had gone over to the opposite side of the river, and destroyed a Military Station or Dépôt. At noon 9 War Junks were seen over the land, and chase immediately given. On entering the reach in which they were, Captain Scott observed on the right bank of the river a new battery, scarcely finished, with 10 embrasures, but without guns, and Hochang Fort close to it, well built of granite, surrounded by a wet ditch, and mounting

14 guns and 6 gijalls. Abreast of these (which they flanked) the river was strongly staked across, through the centre of which the last Junk had passed, and the opening again secured. The enemy immediately commenced firing from the fort and Junks, which was replied to by the "Nemesis" with good effect, while the boats opened a passage through the stakes, and dashed on to the attack of Hochang, and the Junks; the former was secured by wading the ditch and entering the embrasures, and the latter, seeing the fall of the fort, became so panic-stricken, that on the approach of the boats seven got on shore, their crews jumping overboard immediately they grounded, two Junks alone escaping. Lieutenant Bower in pushing to cut them off, discovered Fiesha-kok on the left bank of the river, within 100 yards of the advanced Junk aground, which fort mounting 7 guns, opened a heavy fire of grape upon him; observing that the Junks were abandoned by their crews, he turned all his attention to his new opponents, whom he drove out of their strong hold by passing through the adjoining town and taking them in reverse.

In the meantime Mr. Hall dexterously managed in getting his vessel through the centre passage of the stakes, which fortunately was just sufficiently wide to admit of her passing. At 2-30, the boats returned to the Steamer after having destroyed all the guns and set fire to Fiesha-kok Fort, and the 7 war Junks, which all blew up within a quarter of an hour; chase to the two escaped Junks re-commenced, during which they passed two dismantled forts; at 4 P. M. they arrived off the large provincial Town of Hiangshan, one of the large war Junks preceding them about a mile, the dense population thickly crowded the Banks, Boats, Junks, House-tops, the large Pagoda, and surrounding Hills; both sides of the River were packed by the trading craft of the country in the closest possible order, the centre of the river (which is very narrow here) having merely sufficient space to allow the Steamer's paddle boxes to pass clear of the Junks moored to its banks; not the slightest fear was manifested by the people, but several Mandarins took to their Boats and followed the War Junks, which were closed so rapidly that one of them ran on shore, the Crew jumping overboard; the steamer brought up abreast of her and destroyed her; while thus employed, the fort of Sheang-chap, within 200 yards, (but hidden by some intervening trees) opened its fire, which was instantly returned, and the boats with the Marines of the "Samarang" stormed it, its 8 Guns were destroyed; a number of Chinese Troops coming down towards the fort made it necessary to fire two or three shot, which going directly in the midst of the body, scattered and dispersed them in an instant. At 6 P. M. the Junk and fort were fired, and the steamer passed on into a narrow shallow Channel, scarcely more than the breadth of a Canal, when she anchored head and stern for the night.

At daylight on the morning of the 14th, they weighed and proceeded up the river in the steamer's draught of water, and not broader than her own length grounding occasionally on both sides, at 7-50 arrived at the large village of Hong-how, with a fort of the same name at the upper part, which flanked a strong and broad line of stakes twenty feet wide, completely across the river, filled up in the centre by large sunken junk laden with stones; on discovering the fort the Nemesis opened fire, which was instantly returned by the Enemy; as in all the preceding actions they fled the moment the boats landed to attack them; they had evidently expected to be assailed on the opposite side to that by which the "Nemesis" approached, the wall being piled up with sandbags outside in that direction; nine guns were destroyed here and the fort blown up; after the "Nemesis" had made good her passage through the stakes, which was effected after four hours' incessant hard labour, assisted by the natives, who flocked on board and around in great numbers after the firing had ceased, all apparently anxious to aid in destroying the stakes.

At 4 P. M. they arrived off a Military station, a shot was fired into the principal building, which drove out the garrison who had screened themselves in it; the boats were then sent on shore and the whole establishment, together with a Mandarin boat, mounting one nine pounder and two ginjaes, were destroyed, and at six the Steamer anchored for the night.

At daylight on the 15th the "Nemesis" continued her course upwards, and at 7-30 arrived off the large village Zamchow, under the banks of which a number of soldiers with matchlocks were descried endeavouring to conceal themselves, upon whom a fire of musketry was opened, which dispersed all those who were unhurt in less than a minute.

On moving up to Tagnei, a large town on the left bank of the river, three forts were passed, all dismantled and abandoned, the Custom House of the latter place was destroyed as well as a War Junk mounting seven guns, which the crew had quitted on the approach of the steamer. On proceeding up to Whampoa, three more dismantled forts were observed, and at 4 P. M. the "Nemesis" came to in that anchorage having (in conjunction with the boats) destroyed five Forts, one Battery, two Military Stations, and nine War Junks, in which were 115 Guns and 8 Ginjaes, thus proving to the enemy that the British flag can be displayed throughout their inner waters wherever and whenever it is thought proper by us, against any defence or mode they may adopt to prevent it. This service has been performed without the loss of a single man on our side, and only three seamen slightly wounded belonging to H. M. Ship "Samarang." The greatest praise is due to Mr. W. H. Hall, R. N., Commander of the "Nemesis" for the cool, unwearied, and zealous performance of his duties (under circumstances of frequent danger and difficulty) at all times, more especially in thus traversing a navigation never before passed by a European boat or vessel.

On the 19th I was gratified by receiving a report from Captain Herbert of Her Majesty's Ship "Calliope," Commanding the advanced Squadron, detailing the various operations of that force in the attack and capture of the Forts, defences, and flotilla off Canton, and the hoisting the Union Jack on the Walls of the British Factory: the guns of the Squadron Commanding all the approaches to the City from the Western and Southern branches of the river, thus placing in our power the great provincial Capital.

This was brought about by the Chinese having fired upon a flag of truce, sent with a chop to the Imperial Commissioner at the desire of His Excellency the Plenipotentiary. The flotilla of boats of the Squadron formed into four divisions under the Command of Captains Bouchier and Bethune, of "Blonde" and "Conway;" every arrangement having been completed, the force, as

per margin, moved in advance about noon, and engaged the batteries for about an hour, when the Flotilla, with the Marines under the Command of Captain Bouchier, was brought up in admirable order, and

upon the Signal being given, stormed and completed the capture of the enemy's works, notwithstanding a most determined resistance on the part of the Tartar Troops; 123 guns were mounted in the different forts; the loss of the enemy has been very considerable (upwards of 400 men)—our casualties, I am happy to say, do not exceed six wounded.

This blow was followed by an agreement on the part of the High Commissioner to a suspension of hostilities, and afterwards by the publication of an Edict, declaring the Trade to be opened, and that all British and other Merchants proceeding to the Provincial City shall receive due and perfect protection.

I endeavoured to push forward to the scene of action in the "Hyacinth" Gig, but only arrived towards its close, in sufficient time, however, to be gratified by the hoisting of the British colors. This

for the first time in the history of China, have ships been brought under the very walls of Canton, and by channels and branches on which a foreign ship never before floated. I believe the Chinese were not acquainted with the capabilities of their splendid river, assuredly they had no idea that the Second City of the empire could be assailed by Ships of War on waters; I trust that the fact will have its due influence on the authorities, and I have no doubt that the forbearance displayed towards a city completely at our mercy as this is, will be appreciated by the better classes of the community who have every thing to lose, and the benevolence of the British character more fully understood than ever yet has been in this country.

The gratifying spectacle of our ships in this position is solely attributable to the unwearied exertions of the Captains, Officers, and Men, belonging to them in sounding the various inlets through which they passed, not a single Chinese Pilot having been employed throughout.

In conclusion, we may on this, as on former occasions, congratulate ourselves on this service having been performed without any loss of life on our side, and only 7 wounded (severely) amongst whom is the gallant Officer Lieutenant Stransham, Royal Marine of H. M. S. "Calliope," Acting Brigade Major.

I have the honor to be,

My Lord,

Your Lordship's most obedient humble Servant

J. J. GORDON BREMER,

Commodore of the 1st Class,

Commander in Chief

The report from Captain Herbert of H. M. S. "Calliope" to His Excellency Sir Gordon Bremer, referred to in the preceding despatch, is annexed:

Copy.

British Factory, Canton, 18th March, 1841.

COMMODORE SIR J. J. GORDON BREMER,

Kt. C. B. K. C. H.

Commander in Chief, &c. &c. &c.

SIR,

This day the Force enumerated below, under my orders, carried and destroyed in succession all the Forts the advance and before Canton, taking, sinking, burning, or dispersing the Enemy's Flotilla, and hoisted the Union Jack on the Walls of the British Factory, and Guns of the Squadron commanding all the approaches to the City from the Western and Southern branches of the River, thus placing in our power the great Provincial Capital, containing upwards of one million of inhabitants.

I found myself forced to make this attack without your instructions for the reasons so strongly expressed in Her Majesty's Plenipotentiary's note, herein enclosed, considering it my duty to resent with all the promptitude in my power the insult offered the day before to the Flag of Truce sent with a Chop to the Imperial Commissioner, at the desire of His Excellency.

I forward the accompanying sketch, placing you in more immediate possession of the line of concentration which led to such an immediate result. In detailing the operations of the day, I feel myself inadequate to do justice to the gallant Officers and men employed on this occasion.

The Flotilla of boats formed into 4 Divisions, under the command of Captain Bouchier of the "Blonde," Captain Bethune of the "Conway" commanding. Three Divisions under the immediate charge of Commanders Barlow and Clarke, and Lieutenant Coulson of the Blonde. Her Majesty's Sloop Hyacinth (to whom too much praise cannot be given for the exertion displayed by Commander Warren,

Officers and crew in getting her through the intricate and difficult passes of the river, piloted by Commander Belcher, to be in readiness for operation) and a division of Boats under the command of these Officers were placed at the Southern entrance of the River, recommunicating with the Main Stream at Fatee, to meet any retrograde movement of the numerous Flotilla that had taken part in the aggression on the 16th instant.

Every arrangement having been completed and understood, the whole force moved in advance about noon, the vessels, Marines, and three divisions of boats from the Northward of the Macao Fort and within gun shot of the enemy's advance Batteries, engaging them for about two hours and a half, when all opposition ceased, and the Factory within the defences were taken possession of.

The Modeste was placed within 300 yards, in front of the principal Battery, and shortly gave proofs of her well directed fire, flanked by the powerful guns of the Madagascar, Captain Dicey, with Artillerymen under the direction of Lieutenant Foulis, Madras Artillery, and Nemesis, Mr. W. H. Hall, R. N., commanding, with Artillerymen under the direction of Captain Moore, and Lieutenant Gabbett, Madras Artillery, who handsomely volunteered their services upon the occasion. The Algerine, (Lieut. Mason,) and Starling, (Lieut. Kellett,) passing ahead, cutting through the rafts on the right bank, and engaging a part of the War Junks, the Hebe and Louisa, Tenders taking part, at the same time, under cover of the Ships' guns, the flotilla with the Marines was brought up in admirable order by Captain Bouchier, and upon the signal given, stormed and completed the capture of this part of the enemy's works, notwithstanding a most determined resistance on the part of the Tartar Troops. From this battery the Vessels and flotilla moved forward, and carried the other defences in succession, amounting in the whole to 123 guns.

By the great care of Captain Nias, his Officers, and Ship's Company, the Herald was brought over the flats, and entered the reach during the engagement, which must have had considerable effect upon the enemy, by dividing their attention, not knowing what other force might be in reserve.

Of Captain Bouchier, whose high character is so well known to you, Sir, and the Service, I cannot speak sufficiently strong for the manner in which he conducted the forces under his immediate command, not only leading them into action in admirable order, but keeping them together in readiness for any outbreak of the immense population of such a crowded city, and I cannot refrain mentioning his conspicuous and energetic exertions in towing off the burning Junks, which were drifting upon the suburbs of Canton, and soon would have evidently set fire to that part of the city, and involved the destruction of the whole, in which he reports he was ably assisted by the Officers under his directions. My thanks are also due to that excellent Officer, Captain Bethune, and to Commanders Belcher, Warren, Barlow, and Clarke for their great zeal. The Royal Marines under Lieut. Stransham, of the Calliope, assisted by Lieutenants Daniel, Hewitt, Marriot and Polkinghorne, were as usual conspicuous for their gallant, steady, soldierly bearing. I have however to regret that Lieutenant Stransham, in exerting himself to destroy the works, was suddenly exposed to a heavy explosion, by which he has been considerably burned, but continues at his post; of Lieutenants Kellett and Collinson, and Mr. Brown, Master of the Calliope, every favorable consideration is due, for having made themselves particularly useful in sounding, and afterwards conducting several Men of War safely to an anchorage off the city of Canton—indeed my sincere gratitude is due to every officer, seaman and marine employed on this service for their real and spirited conduct, from which it is to be hoped the most beneficial results will ensue.

His Excellency, Her Majesty's Plenipotentiary, ever on the alert, has done me the honor to be with

me throughout these operations, and to whom my best thanks are due for his support and assistance on all occasions.

By Lieutenant Paul, who you kindly attached to me, I enclose a return of casualties which I am happy to say are inconsiderable, and bring before you the Officers employed in the Flotilla on this Service, with a return of ordnance destroyed in the defences near Canton.

Your presence at the close of the Action releases me from going further into detail.

From the various reports brought in, we have been able to ascertain that the enemy's loss has been about 400 men.

I have the honor to be,

Sir,

Your most obedient Servant,

(Signed) T. HERBERT, Captain.

TO THE RIGHT HON'BLE THE  
EARL OF AUCKLAND, G. C. B.,  
&c. &c. &c. Governor General.

MY LORD,—I have the honor to report to your Lordship my arrival on the 1st instant in the Canton River, and of my having joined and assumed the Military Command of the Expeditionary Force on the 2d at Whampoa Reach, where I found Commodore Sir Gordon Bremer and Her Majesty's Plenipotentiary Captain Elliot, with the advanced Division of the fleet and transports, except two hundred men of the 37th Madras N. I. left at North Wang-Tong as a protecting force.

2. The Commodore will have communicated to your Lordship the operations up to that period, embracing the capture of the Bogue Forts at either side of Bocca Tigris on the 26th February. The forcing of the barrier at the 1st bar on the following day, together with the assault and capture of a heavy battery which flanked it, and the destruction of the Ship Cambridge.

3. Having unfortunately arrived too late to participate in those operations, I cannot refrain from expressing my admiration of the noble, daring, and judicious execution which thus reduced, within a few hours, and almost without loss, what were considered by the Chinese as impregnable, and what, in the hands of almost any other nation, would have been impregnable. It is a great satisfaction to me to find Sir Gordon Bremer speak most favorably of the conduct of Major Pratt, of Her Majesty's 26th, and the Troops employed on this occasion.

4. Having communicated with the Plenipotentiary and the Commodore, I found it was proposed to continue the operations in advance the following day, (the 3d) by attacking the last defences on the Canton River, consisting of a square stone built Fort mounting thirty-two guns, in front of which the river was barred by a double row of strong piles firmly driven with an intervening space of about thirty feet, which the Chinese had filled, by sinking Junks, and placing masses of bamboos, together with timber of every description—seventeen hundred yards further up, the river divides itself into two branches, forming a low narrow Island, which extends to within about a mile of Canton; at the lower point of this is Napier's Fort, a circular half moon enclosed work of Stone Masonry, mounting thirty-six guns; at this point the river was strongly barricaded, connecting Napier's Fort, and two strong newly constructed field works thrown on either bank of the river, by a planked

plat-form placed over the barricade; these latter works showed embrasures of from forty to fifty guns each.

5. On the morning of the 3d having made my arrangements with the Commodore for a conjoint attack on the enemy's works, I proceeded with him up the river in the *Nemesir*, Steamer; but a communication having been made that Yu the Quang-chow-Foo was approaching bearing a flag of Truce, the white flag was hoisted by Her Majesty's Plenipotentiary—Captain Belcher of the *Sulphur* having reported that he could perceive no persons in Howqua Fort, (the before mentioned work flanking the nearest barricade) I proceeded in the *Calliope's* boat with the Commodore and Captain Herbert, when we found it had been abandoned. I had it immediately occupied by the Detachments of H. M.'s 26th and 49th Regts. under Major Pratt: at the same time I took possession of a Joss house at the opposite side of the river (here about eight hundred yards wide) where a five gun mud field work had been commenced, in which I placed Captain Ellis with his Company of the Royal Marines.

6. An Armistice, until noon of the day but one following having been agreed upon, I had an opportunity of reconnoitring the Chinese defences accompanied by a party of the Royal Marines under Captain Ellis, in performing this duty, I had to pass through a very large and populous village, the inhabitants appeared to view our approach towards Canton without the remotest ill-feeling, and I have no doubt would have shewn me the road could I have made myself understood.

7. A further communication having been received from Canton an extension of twenty-four hours was granted to the Armistice and at noon on the 6th the time having expired the Troops were landed on the left bank of the river, consisting of the Detachments of H. M. 26th and 49th Regts. under Major Pratt and the Royal Marines of the fleet under Captain Ellis, the light Squadron and the Flotilla getting under weigh at the same time. On the first vessel passing the barrier the Chinese fired off the guns in the centre battery and retired, the guns in the two flank works it appears had been previously withdrawn, and these defences were instantly occupied by the seamen of the fleet. Thus the last defences of one of the richest towns in China, with a population of upwards of one million of inhabitants, were abandoned without a shot having been fired on our side, and Canton lay at British mercy, and remains a memento of British forbearance.

8. Her Majesty's Plenipotentiary having forwarded me the accompanying letter (No. 1), the Troops were re-embarked. On the receipt of the letter (marked No. 2) arrangements were made for the Transports to fall down the river and rendezvous here. All the Forts have been destroyed by the indefatigable exertions of the seamen, the guns rendered unserviceable, and the barricades have been mostly removed, leaving open the free navigation of the river between Canton and Macao.

9. Major General Burrell and the Staff arrived three days back, and all the Force from Chusan, with the exception of the Bengal Volunteers, has reached this river. I am using every exertion for the Military occupation of North Wang-Tong, and when completed or in a forward state, the Fleet will proceed to the Island of Hong-kong, which it is the intention of Her Majesty's Plenipotentiary to occupy.

10. I shall not fail, when the Troops are assembled at Hong-Kong, to give my earnest attention to their location so as to re-establish, by every means within my power, their health, and fit them for ulterior operations; no want of supplies need I conceive be apprehended, nor do I believe, from all I can learn, that any exertions on the part of the Chinese authorities can prevent their being procured.

THE RIGHT HON'BLE THE  
EARL OF AUCKLAND, G. C. B.,  
&c. &c. &c. *Governor General.*

MY LORD.—I have the honor to report to your Lordship my arrival on the 1st instant in the Canton, and of my having joined and assumed the Military Command of the Expeditionary Force on the 2d at Ampoa Reach, where I found Commodore Sir Gordon Bremer and Her Majesty's Plenipotentiary Captain Elliot, with the advanced Division of the fleet of transports, except two hundred men of the 37th N. I. left at North Wang-Tong as a protective force.

2. The Commodore will have communicated to your Lordship the operations up to that period, embracing the capture of the Bogue Forts at either side of Bocca Tigris on the 26th February. The forcing of the barrier at the 1st bar on the following day, together with the assault and capture of a heavy battery which defended it, and the destruction of the Ship Cambridge.

3. Having unfortunately arrived too late to participate in those operations, I cannot refrain from expressing my admiration of the noble, daring, and successful execution which thus reduced, within a few days, and almost without loss, what were considered the Chinese as impregnable, and what, in the hands of almost any other nation, would have been very so. It is a great satisfaction to me to find Sir Gordon Bremer speak most favorably of the conduct of Major Pratt, of Her Majesty's 26th, and the Troops employed on this occasion.

The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payments of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expences which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

*Resolution*—With a view to uniformity of practice at all the Presidencies, the following Constructions of Rules of the Absentee Regulations, dated the 29th January, 1840, are ordered to be published for general information and guidance.

SECTION III.

SECTION III.

No leave of absence shall have any retrospective effect, except in cases of severe illness to be attested by Medical Certificate, conforming in every respect to the directions contained in Section V.

1st.—The leave with retrospective effect referred to in this Section is leave extending to absence antecedent to the permission of the Government—that is, to absence in anticipation of original leave without the excuse of sickness.

SECTION VI. AND VIII.

SECTION VI.

Civil Servants absent from their Stations under Medical Certificate will be entitled to the Salaries of their respective offices subject to the following deductions. If the Salary exceed Rupees 2,000 per mensem, one-sixth for the first year and for the second year one-fourth. If the Salary do not exceed Rupees 2,000 per mensem, one-eighth for the first year and one-sixth for the second. But if the Salary of office be not more than Rupees 500 per mensem, no deduction shall be made for the first year, and if it be only so much more that the prescribed deduction of one-eighth would reduce the allowance below Rupees 500 per mensem only the excess beyond Rupees 500 shall be deducted. For the second year the absentee shall become liable to the deduction of one-eighth. An absent Servant shall in no case retain any office or employment nor be permitted to draw any portion of Official Salary for a longer period than two years; but a Civil Servant, who may, on account of sickness, duly certified, obtain an extension of leave beyond two years will, if below the rank of a Senior Merchant, be allowed to draw the Subsistence Allowance of a Junior Merchant, and if a Senior Merchant the Subsistence Allowance of his rank, but if he continue absent in disobedience of an order to return, or without sufficient cause shown, that Allowance also will be forfeited. The period of absence shall be computed from the date at which the Absentee shall quit the limits of the Territories, subject to the Presidency to which he may belong, to the date of his return within such limits, or if he shall proceed beyond Sea from the date of his embarking at any place or port in India, which is not more distant from his station than the Ports of his own Presidency; but if the place to which he shall proceed shall be within the Territories subject to such Presidency his period of absence shall be computed from the date of his quitting his Station to the date of his return thereto.

SECTION VIII.

*NOTE*—This Rule applies to all descriptions of leave on account of health, excepting those granted under Section XII.

Thus a second leave within the Presidency no less than a second leave to Sea will be computed as forming part of the period of two years, if taken before three years have elapsed since return from the first leave and the deductions will be made upon computation of the accumulated period of absence under all such leaves taken without the intervention of three years of consecutive service.

No second leave will be granted to any Civil or Military Servant holding a Civil appointment, who has been absent under the above rules for two years until three years at the least shall have passed after the date of such Servant's return, but if such Servant is compelled by sickness again to absent himself from his Station within three years after having been absent under the above rule for less than two years, he will be allowed to complete that period, subject to the limitations and conditions heretofore prescribed, drawing the proportion of Salary allowed for the remaining time as if the leave had been continuous.

2d.—A Servant is not allowed to be absent, retaining "Office or Employment" or "portion of Official Salary," for a period exceeding two years; but extension of leave may be obtained on account of sickness duly certified, and during such extension the Absentee is authorized to draw the Subsistence Allowance of his rank. If the absence be beyond the Territories of the Presidency to which the Servant belongs, it is to be computed from the date of his quitting the limits of his Presidency to the date of his return within those limits; if beyond Sea, from the date of his embarkation from the port of his Presidency or from any Port not more distant than the Port of his Presidency to the date of his return within the limits of his Presidency. If the place to which he shall proceed be within the Territories subject to his Presidency, his period of absence shall be computed from the date of his quitting his Station to the date of his return thereto.

A second leave of this kind cannot be granted until three years at the least shall have passed after the date of such Servant's return, but any time short of two years in a previous absence may be subsequently allowed in completion of two years. The Note attached to Section VIII. specifies that this Rule applies to all descriptions of leave on account of health excepting those granted under Section XII.

After two years of absence, continuous or accumulated, under these Rules, if a Servant obtain leave of absence on Sick Certificate before an interval has passed of three years, he cannot retain office or employment, or any portion of Official Salary, but he is entitled to the Subsistence Allowance of his rank. The Rule\* in Section VI., if literally interpreted, would require the Servant returning from beyond

Sea, whose full period of two years had expired between the date of his embarkation, and the date of his return within the limits of his Presidency, to be reappointed to his Office. For the time spent in joining his Station in excess of two years, he is entitled to draw only the Subsistence Allowance of his rank.

It is not provided that in cases in which the full period of two years absence is composed of accumulated leaves, the intervals of time passed in the performance of duty shall be reckoned in part of the three years which must expire before a Servant is eligible to a new series of leave.

But if this were not allowed the operation of the Rule might be unintentionally severe on a Servant whose health should compel him to obtain leave of absence for a portion of the two years, say for only a month, at the extremity of the three years after the date of his return, the same Servant having been already absent for 23 months either all at once, or his absences at different times having accumulated to 23 months: it would not have been intended by the Rule that after 33 months of duty, being entitled to one month on account of the old score, a new series of leave or a single instance of leave on Sick Certificate should not be obtainable for three years from the expiration of that one or 36th month.

The Rules do not prescribe any different rate of deduction from allowances during absence on Sick Certificate within the Territories of the East India Company and during similar absence at the Cape of Good Hope, or within the limits out of the Territories of the East India Company declared in Section IV. But they fix the computation of the Servant's absence beyond the Presidencies to be from the date of leaving to the date of returning to the Port of his Presidency.

The Rules provide sufficiently for the Audit of his Allowances after two years absence beyond Sea, until the Servant rejoins his Station, but they do not specify what rate of deduction is to be made from the Absentee's Allowance for the time elapsing after departure from Station and before embarkation. This therefore has required to be provided for by a new Regulation, or by some exposition of the existing rules.

The Rule that admits of an absence of two years enables a Sick Servant to reside sufficiently long in another climate under ordinary circumstances to re-establish his health; for which object that protracted absence is permitted, when certified to be necessary. Forfeiture of Appointment, therefore, does not take place till a full two years have transpired between embarkation and return to Port. If the latter part of the Section VI be taken to apply only to computation of absence as respects appointment the course of the Audit will be easy: For two years, reckoning from departure, from Station to return to Station, the deductions will be as laid down at the commencement of the Section, and for any excess whether occasioned by the time elapsing before embarkation or after return to Port until return to Station, the Servant will be entitled to Subsistence Allowance without losing his Appointment.

#### SECTION XI.

The Government of each Presidency may grant to Civil or Military Servants holding Civil Appointments, leave of absence for one month in each year, without deduction from the Salaries and Emoluments drawn by such Servants. Such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this rule until the completion of eleven months, from the expiration of the last leave, but the Servants not availing themselves of the indulgence in any one year may obtain under the like conditions leave of absence for two successive months, to commence at or after the expiration of 22 months, from the termination of their former leave, and if two years elapse without enjoyment of the privilege, leave for three months may in like manner be granted at the expiration of 33 months from the termination of the last preceding leave. But no leave shall be granted under this rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this rule, he shall if absent on private affairs be subjected to the deduction of one-third of his Salary and Allowances for the entire term of absence, and if he shall continue absent for more than one month beyond the term granted, his office shall become vacant. If his protracted absence be occasioned by sickness, the case must be determined under the Provisions of Chapter II.

#### SECTION XI.

31. The design of this Rule is to grant one leave of absence without loss of Salary to the Servant who is present at his duty for the periods specified.

*Rules for the guidance of the Committees in examining Candidates for the Office of Moonsiff.*

1. The examination to be partly viva voce and partly written answers to prepared questions.

2. The questions will be framed by the Court of Sudder Dewanny Adawlut, from the Regulations and Rules of practice for the guidance of the Courts of Civil Justice, and will be forwarded by them to the Examination Committees, on the receipt of the prescribed reports informing them that examinations are about to be held.

3. The questions to be answered by the Candidates, without reference to books or other sources of information, in the presence of two Members (one of them being the Judge, or the Commissioner of the Division) of the Examining Committee. The several Members of the Committee however shall examine the replies, and report on the eligibility of the Candidates. Candidates will be at liberty to give their replies in whatever language they please; but it will be the duty of the Committee to satisfy themselves, that every Candidate, who

may be considered qualified in other respects for the situation of Moonsiff, possesses also a competent knowledge of the principal vernacular languages of the country.

4. After the Candidates shall have delivered their written replies to the questions the papers of a Moonsiff case, which has been decided on its merits, shall be read by a Mohurrir, *seriatim*, the final decree excepted, to the several Candidates, who shall then be required to record, in any language they may prefer, their opinions on the point at issue between the parties, and the manner in which the suit ought to be decided, agreeably to the Regulations and the law of the parties. The opinions thus recorded, shall be examined by the whole of the Committee, to enable them to judge of the capacity and intelligence of the Candidates.

5. On the close of the examination, the replies of the Candidates to the written questions, shall be forwarded to the Sudder Dewanny Adawlut.

6. The oral examination shall be conducted by a full meeting of the Examining Committee, who shall examine each Candidate separately, by questions from the Regulations relating to the constitution, extent of jurisdiction, powers, and course of procedure of the Courts of the Native Judges.

7. At the conclusion of the examination, the Committee shall, as directed in the 6th of the Government Rules, grant to such Candidates as they may deem proper, diplomas of fitness for employment as Moonsiffs, according to the form furnished to them by the Sudder Court, and at the same time forward duly certified lists of such candidates to the Sudder Dewanny Adawlut.

8. Diplomas shall be granted by the Mofussil Committees only to those Candidates who may answer correctly the whole of the questions forwarded by the Sudder Dewanny Adawlut. Should a Mofussil Committee be of opinion, that a Candidate, who may not have answered all the questions, is otherwise eligible to the Office of Moonsiff on any special grounds, they shall forward the written replies of such Candidate, with a statement of the grounds on which they consider him entitled to a diploma, for the consideration of the Presidency Central Committee, who will decide whether the Candidate shall receive a diploma or otherwise. This rule does not apply to the Presidency Committee, whose powers will continue as before.

9. When the Members of any Committee are equally divided in opinion as to the propriety of granting or withholding a diploma, such equality of votes shall be held to render the Candidate ineligible.

10. No Member of any Committee shall vote regarding any Candidate to whom he may be in any way related.

11. Candidates, who may be rejected at one sitting of a Committee, shall be entitled, at the expiration of any period which the Committee may fix upon, with reference to the degree of knowledge evinced by such Candidates, when examined the first time, to appear a second time before them for examination: provided however that such Candidates shall renew their certificates from the Zillah Judge previously to the second examination.

12. The Zillah Judge, to whom application may be made for a certificate, shall, after making such enquiries as he may deem proper to ascertain that the applicant is a person of respectable connexions, good character, and suitable attainments, certify on the face of the application, that the applicant may be examined. If, however, the enquiries made on these points prove unsatisfactory, or if the applicant be unable to produce credentials to his respectability, past conduct, and general qualifications, the Judge shall decline compliance with the application.

13. The certificate to be granted by the Judge shall be in the following terms: "I do hereby certify, that I have satisfied myself that the bearer of this certificate, A B, is a man fully fitted by respectability and good character, to fill the Office of Moonsiff; and, from the enquiries I have made, I have every reason to believe, that he is qualified, from his past conduct and general information, to enjoy the privilege of examination for the Office of Moonsiff." This certificate shall then be transmitted to the Sudder Dewanny Adawlut, who, if they be aware of no objection, shall certify as follows:

"The Sudder Dewanny Adawlut, having inspected this certificate, are aware of no objection to the examination of the candidate."

(Signed) A. B., Register.

14. When a candidate appears before a Committee, if they shall be aware of objections to his examination on the score of character, they shall refuse to proceed with his examination, and shall declare their objection in writing on the face of the certificate, and transmit it to the Sudder Dewanny Adawlut for such orders, or, for such further enquiry, as the Sudder Dewanny Adawlut may think proper.

**Caution to the Indian Public.**

**COUNTERFEIT LABELS—INJUNCTION.**

[VICE-CHANCELLOR'S COURT, FEB. 22.]—This was a case (DAVIS AND OTHERS v. BRYANT,) in which an application was made upon notice for a special injunction, to restrain the defendant from using labels which were counterfeits of those used by the plaintiffs. The plaintiffs are Messrs. Hesketh Davis and Co., the eminent oil and pickle dealers of Leadenhall-street, and the defendant is the superintendent of St. James's workhouse. From the statements of the learned counsel, it appeared that the pickles of the plaintiffs having acquired considerable reputation in India, the defendant, who has a son there, had been in the habit for some time of sending articles to him, the bottles of which were labelled with an exact imitation of the bottles used by the plaintiffs. This was not discovered by the plaintiffs till a short time ago, and the manner of that discovery was rather singular. A note was sent to the plaintiffs from an engraver, stating that he thought it would be a great improvement if they would have the plate of their labels touched up a little, as it had become the worse for use. This communication surprised them, knowing that the party who had written to them was not the engraver whom they employed, and they immediately waited upon the engraver, when, to their astonishment, they discovered that the plate was a spurious one, and that it had been sent to the engraver by the defendant. Upon this a remonstrance was sent to the defendant, but without effect, and the only course left open to the plaintiffs for the purpose of putting down this simple and modest use of their labels by the defendant, was to apply to that court for the injunction. Notice had been given to the defendant of the application, but he had very wisely thought proper not to appear.—The Vice-Chancellor, without the least hesitation, immediately granted the injunction.

MESSRS. H. DAVIS AND CO. have appointed TULLOH AND CO. to be their AGENTS in CALCUTTA—so that the Public may depend on the Oilman Stores, sold by them, being genuine.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Government, or Authorized Agents of the East India Company, an Advance not exceeding three-fifths of such ascertained value will be made.

*The rate of Exchange to be determined from time to time at the place where the Advance is made under the Court's orders.*

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn

deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payments of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expences which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

No leave of absence shall have any retrospective effect, except in cases of severe illness to be attested by Medical Certificate, conforming in every respect to the directions contained in Section V.

1st.—The leave with retrospective effect referred to in this Section is leave extending to absence antecedent to the permission of the Government—that is, to absence in anticipation of original leave without the excuse of sickness.

SECTION VI. AND VIII.

SECTION VI.

Civil Servants absent from their Stations under Medical Certificate will be entitled to the Salaries of their respective offices subject to the following deductions. If the Salary exceed Rupees 2,000 per mensem, one-sixth for the first year and for the second year one-fourth. If the Salary do not exceed Rupees 2,000 per mensem, one-eighth for the first year and one-sixth for the second. But if the Salary of office be not more than Rupees 500 per mensem, no deduction shall be made for the first year, and if it be only so much more that the prescribed deduction of one-eighth would reduce the allowance below Rupees 500 per mensem only the excess beyond Rupees 500 shall be deducted. For the second year the absentee shall become liable to the deduction of one-eighth. An absent Servant shall in no case retain any office or employment nor be permitted to draw any portion of Official Salary for a longer period than two years; but a Civil Servant, who may, on account of sickness, duly certified, obtain an extension of leave beyond two years will, if below the rank of a Senior Merchant, be allowed to draw the Subsistence Allowance of a Junior Merchant, and if a Senior Merchant the Subsistence Allowance of his rank, but if he continue absent in disobedience of an order to return, or without sufficient cause shewn, that Allowance also will be forfeited. The period of absence shall be computed from the date at which the Absentee shall quit the limits of the Territories, subject to the Presidency to which he may belong, to the date of his return within such limits, or if he shall proceed beyond Sea from the date of his embarking at any place or port in India, which is not more distant from his station than the Ports of his own Presidency; but if the place to which he shall proceed shall be within the Territories subject to such Presidency his period of absence shall be computed from the date of his quitting his Station to the date of his return thereto.

SECTION VIII.

*NOTE*—This Rule applies to all descriptions of leave on account of health, excepting those granted under Section XII.

Thus a second leave within the Presidency no less than a second leave to Sea will be computed as forming part of the period of two years, if taken before three years have elapsed since return from the first leave and the deductions will be made upon computation of the accumulated period of absence under all such leaves taken without the intervention of three years of consecutive service.

No second leave will be granted to any Civil or Military Servant holding a Civil appointment, who has been absent under the above rules for two years until three years at the least shall have passed after the date of such Servant's return, but if such Servant is compelled by sickness again to absent himself from his Station within three years after having been absent under the above rule for less than two years, he will be allowed to complete that period, subject to the limitations and conditions heretofore prescribed, drawing the proportion of Salary allowed for the remaining time as if the leave had been continuous.

2d.—A Servant is not allowed to be absent, retaining "Office or Employment" or "portion of Official Salary," for a period exceeding two years; but extension of leave may be obtained on account of sickness duly certified, and during such extension the Absentee is authorized to draw the Subsistence Allowance of his rank. If the absence be beyond the Territories of the Presidency to which the Servant belongs, it is to be computed from the date of his quitting the limits of his Presidency to the date of his return within those limits; if beyond Sea, from the date of his embarkation from the port of his Presidency or from any Port not more distant than the Port of his Presidency to the date of his return within the limits of his Presidency. If the place to which he shall proceed be within the Territories subject to his Presidency, his period of absence shall be computed from the date of his quitting his Station to the date of his return thereto.

A second leave of this kind cannot be granted until three years at the least shall have passed after the date of such Servant's return, but any time short of two years in a previous absence may be subsequently allowed in completion of two years. The Note attached to Section VIII. specifies that this Rule applies to all descriptions of leave on account of health excepting those granted under Section XII.

After two years of absence, continuous or accumulated, under these Rules, if a Servant obtain leave of absence on Sick Certificate before an interval has passed of three years, he cannot retain office or employment, or any portion of Official Salary, but he is entitled to the Subsistence Allowance of his rank. The Rule\* in Section VI., if literally interpreted, would require the Servant returning from beyond

\* "An absent Servant shall in no case retain any office or employment, nor be permitted to draw any portion of Official Salary, for a longer period than two years."

Sea, whose full period of two years had expired between the date of his embarkation, and the date of his return within the limits of his Presidency, to be reappointed to his Office. For the time spent in joining his Station in excess of two years, he is entitled to draw only the Subsistence Allowance of his rank.

It is not provided that in cases in which the full period of two years absence is composed of accumulated leaves, the intervals of time passed in the performance of duty shall be reckoned in part of the three years which must expire before a Servant is eligible to a new series of leave.

But if this were not allowed the operation of the Rule might be unintentionally severe on a Servant whose health should compel him to obtain leave of absence for a portion of the two years, say for only a month, at the extremity of the three years after the date of his return, the same Servant having been already absent for 23 months either all at once, or his absences at different times having accumulated to 23 months: it would not have been intended by the Rule that after 33 months of duty, being entitled to one month on account of the old score, a new series of leave or a single instance of leave on Sick Certificate should not be obtainable for three years from the expiration of that one or 36th month.

The Rules do not prescribe any different rate of deduction from allowances during absence on Sick Certificate within the Territories of the East India Company and during similar absence at the Cape of Good Hope, or within the limits out of the Territories of the East India Company declared in Section IV. But they fix the computation of the Servant's absence beyond the Presidencies to be from the date of leaving to the date of returning to the Port of his Presidency.

The Rules provide sufficiently for the Audit of his Allowances after two years absence beyond Sea, until the Servant rejoins his Station, but they do not specify what rate of deduction is to be made from the Absentee's Allowance for the time elapsing after departure from Station and before embarkation. This therefore has required to be provided for by a new Regulation, or by some exposition of the existing rules.

The Rule that admits of an absence of two years enables a Sick Servant to reside sufficiently long in another climate under ordinary circumstances to re-establish his health: for which object that protracted absence is permitted, when certified to be necessary. Forfeiture of Appointment, therefore, does not take place till a full two years have transpired between embarkation and return to Port. If the latter part of the Section VI be taken to apply only to computation of absence as respects appointment the course of the Audit will be easy: For two years, reckoning from departure, from Station to return to Station, the deductions will be as laid down at the commencement of the Section, and for any excess whether occasioned by the time elapsing before embarkation or after return to Port until return to Station, the Servant will be entitled to Subsistence Allowance without losing his Appointment.

#### SECTION XI.

The Government of each Presidency may grant to Civil or Military Servants holding Civil Appointments, leave of absence for one month in each year, without deduction from the Salaries and Emoluments drawn by such Servants. Such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this rule until the completion of eleven months, from the expiration of the last leave, but the Servants not availing themselves of the indulgence in any one year may obtain under the like conditions leave of absence for two successive months, to commence at or after the expiration of 22 months, from the termination of their former leave, and if two years elapse without enjoyment of the privilege, leave for three months may in like manner be granted at the expiration of 33 months from the termination of the last preceding leave. But no leave shall be granted under this rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this rule, he shall if absent on private affairs be subjected to the deduction of one-third of his Salary and Allowances for the entire term of absence, and if he shall continue absent for more than one month beyond the term granted, his office shall become vacant. If his protracted absence be occasioned by sickness, the case must be determined under the Provisions of Chapter II.

not take place till a full two years have transpired between embarkation and return to Port. If the latter part of the Section VI be taken to apply only to computation of absence as respects appointment the course of the Audit will be easy: For two years, reckoning from departure, from Station to return to Station, the deductions will be as laid down at the commencement of the Section, and for any excess whether occasioned by the time elapsing before embarkation or after return to Port until return to Station, the Servant will be entitled to Subsistence Allowance without losing his Appointment.

#### SECTION XI.

3d. The design of this Rule is to grant one leave of absence without loss of Salary to the Servant who is present at his duty for the periods specified.
